Tips for Improving Student Bright Futures Attainment
&
Broward Technical Colleges as a Post Secondary Option

Vicky LaPorte
Atlantic Technical College and Technical High School
July 31, 2018
Why is Bright Futures Attainment Important?

- 68% of BCPS High School Students have indicated low SES according to the FRD rate
- Scholarship opportunities will be fundamental for continuing postsecondary education
- Graduates opt to attend a state college in lieu of a university for financial reasons or not getting into the university of choice; additional students opt to attend college part-time for financial reasons
- According to Forbes Magazine (Student Loan Debt in 2017: a $1.3 Trillion Crises), the average student in Class of 2016 has $37,172 in student loan debt
Many students are able to achieve the minimum GPA requirement for Bright Futures, but have difficulty attaining the SAT/ACT score requirement.

- **ATC Example (Class of 2017):**
  - 45% of students were GPA eligible for the Bright Futures Academic Scholars, but only 13% received it due to not attaining the 1290 SAT/29 ACT requirement.
  - 39% of students were GPA eligible for the Bright Futures Medallion Scholars, but only 19% received it due to not attaining the 1170 SAT/26 ACT requirement.
How can we make our students college/university dreams more attainable?
Focus on SAT-Prep!

Additional Benefits of improved SAT scores:

• Students have a greater chance of being accepted at their university of choice

• Students who are having difficulty meeting the required score on FSA-ELA and/or Algebra 1 may meet the requirement via SAT concordant scores

  Students see value in the PSAT/SAT tests, therefore they put more emphasis into preparation

• Practicing and improving verbal (EBRW) and math skills will improve quality of work in all classes
