

Coral Springs High School

Career & Technical Education

C.T.E is a philosophy that is designed to have students create business related projects, while partnering them with local business professionals and educational mentors (Broward College). These mentors help students to further develop quality projects, while simultaneously sharpening their soft skills to prepare them for real world presentations.

~ONE MAJOR PROJECT ANNUALLY~

- Most students who participate in C.T.E must also participate B.P.A. (Business Professional of America). This gives all of our C.T.E students an opportunity to hone their skills in a variety of competitions that range from basic business knowledge to advanced computer and technology related skills.
- Almost 100% of all past C.T.E students were successful in moving on from BPA Districts to the State Leadership Conference in Orlando Florida. Each year we have students who also compete on the national level at the National Leadership Conference held in various cities around the United States.

~INDUSTRY CERTIFICATIONS~
