

TOWN OF DAVIE
Nova Drive Roadway Improvements
From Davie Road to SW 76th Avenue

NOTICE TO BUSINESSES AND RESIDENTS

This notice is to provide a brief update regarding the Nova Drive Roadway Improvements Project. Please be advised that **Weekley Asphalt Paving, Inc.** will begin construction around the second week of September, 2018 on Nova Drive beginning east at Davie Road and progressing west to SW 76th Avenue.

Work is expected to take place from September 2018 to November 2019

The scope of work consists of widening the existing multi-lane road configuration throughout the corridor to accommodate a combination of shared and designated bike lanes, intermittent landscape medians, turn lanes and the construction of a traffic roundabout 200' west of SW 71st Terrace together with the expansion to a four lane divided section with landscape medians from Davie Road to College Avenue. Existing drainage facilities will be modified and new drainage facilities will be added. New sidewalks, curbing, curb ramps, roadway lighting, landscaping with irrigation, new signalization, as well as road construction, milling, resurfacing, and new pavement markings and signage will be constructed.

Traffic will be impacted throughout the duration of the project and drivers are encouraged to take alternate routes other than Nova Drive to their destinations whenever possible. Maintenance of traffic will vary throughout the duration of the project, and although two lane, bi-directional traffic will be maintained whenever feasible, there will be periods where traffic will be reduced to a shared single lane with flagmen or a road closure with traffic detour signs. Please expect delays and govern yourself accordingly during this period.

Your patience and understanding is greatly appreciated and we apologize for any inconvenience as we endeavor to complete these improvements in your neighborhood.

The project contact information is provided below should you have any questions or concerns regarding the Nova Drive Roadway Improvements as the project moves through construction to completion.
