SUBJECT: COMMUNITY PARTNERS RESOURCE GUIDE

ACTION: It is important for schools to provide the *Community Partners Resource Guide* to parents, families, students, and community members. In addition, post on school websites, provide to teachers, key staff members and Parent Teacher Association groups. This important Guide provides stakeholders with a “One-Stop-Shop” for resources available not only in their community but across the county.

RATIONALE: As a District we understand the difficulties for schools to find and foster the relationship necessary to create the type of partnerships that are not only comprehensive in nature, but also readily available to all stakeholders. Schools are extremely busy focusing on many other aspects of the daily education and safety of students, staffs, and the community and find themselves not being able to successfully create school-based partnerships to address the needs of their community. This *Community Partners Resource Guide* is comprehensive, and it provides county-wide partnerships that are strong and of incredible assistance to all school communities by capitalizing on the resources our partners can offer.
