August 2, 2023

Dear Peters Elementary Community,

The Environmental Health & Safety Department is pleased to communicate to the Peters Elementary Community that the interim soil removal activities have been completed as of July 21, 2023. All areas of soil removal were restored with clean fill sand or potting soil. In addition, site staff and Physical Plant Operations (PPO) Custodial staff are preparing the campus and classrooms for the 2023-24 school year by performing necessary cleaning, maintenance, sod and mulch installation. All activities are scheduled to be completed prior to school starting.

Any concerns may be directed to the Environmental Health & Safety Department at 754-321-4200 or EHS-help@browardschools.com.

Sincerely,

Alison Witoshynsky

Director, Environmental Health & Safety
