## STMS 2022-2023 SUMMER MATH INFORMATION

Dear Parents,

Research shows that students lose about two months of grade level equivalency in mathematical computation skills over the summer months. Intentional practice of math skills will help students reach mastery of required material and increase their ability to use facts and operations easily and accurately.

For this reason, the math department highly encourages students to participate in our summer math program that is available through Khan Academy. Our summer math program is OPTIONAL and allows students to practice skills that they have previously learned.

Most of the assignments are between 4-7 questions. If your child needs assistance with the material, there are support videos with Khan Academy for remediation. Students who complete at least 25 of the assignments with a passing score of 75% or better, will be eligible to receive extra credit in the 1st quarter of the 2022-2023 school year. The more assignments completed, the more extra credit your child will receive.

Summer Math will be due Tuesday, September 6<sup>th</sup>, 2022. Students will have to submit an assignment report through Canvas to their 2022-2023 math teacher.

**Enrollment information is on the following page.**

Students who already have a Khan Academy account:

Login into Khanacademy.org. Go to TEACHER on the bottom left and enroll in the appropriate course.

Students who do not already have a Khan Academy account:

You will need to enroll your child in the summer math by creating an account directly with Khan Academy. Do **NOT** use your child's 06 number as the email. Make sure you use a working email so that you can recover the password if forgotten. Go to TEACHER on the bottom left and enroll in the appropriate course.

<b>Course</b>	<b>Student Last Initial</b>	<b>Class Code</b>
<b>Math 6</b>	A-C	DEAHC264
<b>Math 6</b>	D-G	GGKQGFR7
