

CITY OF PARKLAND PUBLIC NOTICE CONSTRUCTION TO BEGIN SOON

INTERSECTION IMPROVEMENTS ROUNDBOUT AT UNIVERSITY DR AND OLD CLUB ROAD

PROJECT IMPROVEMENTS

To reduce traffic back-ups that occur at the intersection of University Drive and Old Club Road (the entrance to Parkland Golf and Country Club), a roundabout will be constructed to replace the existing three-way stop intersection. The center of this roundabout, like others in the City of Parkland, will be landscaped and have various features.

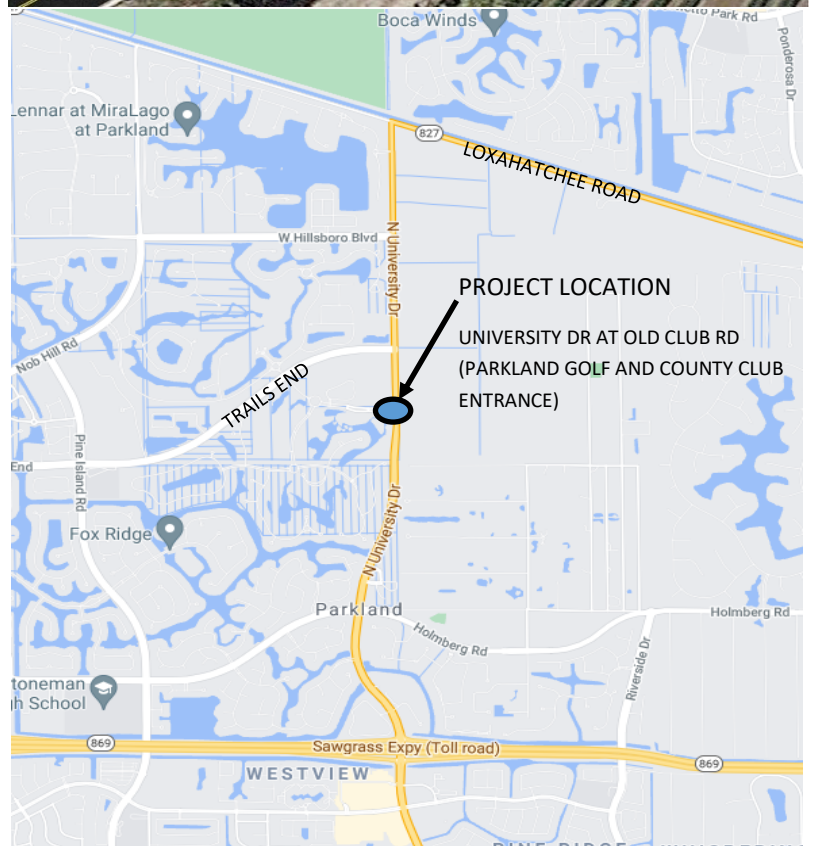

Construction is scheduled to begin by June 2021 and be completed by the end of 2021. At times this project may have significant impacts on traffic. Please be patient when driving through this area.

TRAFFIC IMPACTS

- Work will be conducted in phases to minimize traffic impacts.
- Short-term, temporary closures of University Drive are anticipated and will require detours.
- Short-term, temporary single lane closures are also anticipated.
- Resident access will be maintained throughout construction except during road closures where required.

CONSTRUCTION INFORMATION

- Construction Begins: May/June 2021
- Anticipated Completion: End of 2021
- Visit cityofparkland.org/traffic for updates
