Welcome to Ramblewood Middle School's "Partners In Excellence" Program,

Ramblewood Middle School appreciates and values the relationship that has been built among your businesses, the community, and supporting the students of RMS. We understand the direct connection between student achievement here on campus, and the support that has been evident from our surrounding community.

The philosophy of our Partner's In Excellence Program is to continue to foster these relationships, and to implement more avenues for student success, with real world opportunities through the school to community connection. Ramblewood's theme for our Students and Staff of the Raider Nation is: "Everyone is on the same TEAM". We believe that a positive impact can be felt within each teachable moment, on campus, and throughout the community, as we are ALL on the same team, that we are *TEAMMATES* for our youth.

The Business we are in, is the TEAM we are on, that we will celebrate and foster 100% Student Success at Ramblewood Middle School. Become a Partner In Excellence and invest TIME in our next generation.

Ramblewood Middle School's Partners In Excellence model will feature meetings with Business Partners and Community Leaders involved in and around the Ramblewood community. Speaking with, meeting, and building relationships with our stakeholders is the focus of PIE. It is our goal to increase the publicity and awareness of our Partner's Impact, and how much you do for our schools and community.
