Discussion:				
<ul style="list-style-type: none"> • A discussion was launched in response to a parent concern that the restrooms provide opportunities for bullying and vandalism. • Parents in the group reported that their children will decide to endure physical discomfort rather than take step into the school restroom. • School Administration (E. O'Neal) confirmed that replacement stall doors and partitions have already been ordered for previously identified damaged or non-functioning doors and partitions. • School Administration (M. Bianchi) is evaluating the installation of graffiti-resistant stall partitions/doors and using chemical coatings or other protective materials that make removal of graffiti less difficult. • To discourage any inappropriate behavior, school staff are assigned to monitor designated restroom areas, typically in close proximity to their classrooms and/or offices. School Administration (M. Bianchi) will seek to increase the level of current monitoring and re-evaluate staff coverage.
