We have a new Caltrate Director, Mr. Balchunas.

An email was sent out about at-home COVID-19 testing kits being distributed by Broward County schools. We have them in the main office. You may come by and pick up at kit.

Please follow the CDC guidelines if you are exposed to, develop symptoms, or test positive for the virus. Employees must complete the form with your name and employment status. When using Smart Find, select "Quarantine" as your absence status.

Follow the school's protocols for staff and students if tested or exposed to the virus.

Jeff Bezos Foundation is working with the school to start the pre-school academy. They will start construction in building one. This is a Montessori based program.

Mr. Campo told staff that he was grateful for staff coming to work every day. It is truly appreciated.

School Grade: Mr. Campo

We just completed the 2nd quarter iReady Diagnostic and are in the process of calculating the results. Mr. Jackson asked a question about Science BAS testing. Mr. Campo stated he has not received notice about BAS testing as of this date.
