

Paladin Parents:

As you may be aware, our state legislators are currently in session. Included in this year's session are some proposed bills that will have major implications on us as a collective community if they are signed into law. The District has a website dedicated to educating its stakeholders on the actions taking place during the session. Please make time to visit this website and make yourselves familiar with the proposed legislation and feel free to contact our state legislators if you are so inclined. <http://www.browardschools.com/School-Board/Legislative-Information/Legislative-Comments>

Thank you in advance for your support in this very important matter.
