

BOYD H. ANDERSON HIGH SCHOOL CTACE

Volume 1 / Issue 1

ADOBE ILLUSTRATOR® CERTIFICATION

For the first time ever, Boyd Anderson High School students have the opportunity to earn an Industry Certification, with Graphic Design & Illustration. The Adobe Certified Associate, will be able to obtain a career that focuses on color images, image basics, printing and text.

Samantha Pierre, a junior, has earned 3 Industry Certifications at Boyd Anderson. She is looking forward to earning a certification in Dreamweaver®, next school year. Keep up the great work!

INFORMATION AND TECHNOLOGY

The Global Logistics Academy, located in the business department, is off to a great start, with new teacher Mr. Jimmy Maruri. Mr. Maruri has over 35 years of business experience, including holding a previous title of Vice President of a bank. Students in this program, have the opportunity to earn a certificate as a Global Logistics Associate. With this wonderful opening, students can earn 3 extra credits at Broward College. To date, the students have focused on many companies, through virtual field trips, like DHL, UPS and FedEx.

Inuit QuickBooks®

Students learn how to be a small business winner with a certification in QuickBooks. In class, student create their own business and learn how to serve clients better with a professional accounting software. Some of the business types students created were bike shops, food trucks, landscapers and online retailers. Upon successful completion of this certification, students will earn a substitution credit in college mathematics and/or science.

Adobe InDesign®

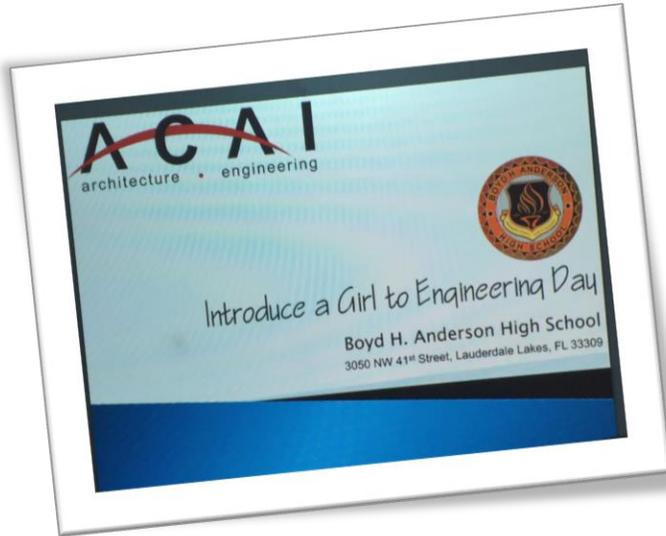

Adobe InDesign® is a desktop publishing software, used to create works such as posters, flyers, menus and brochures. The students at Boyd Anderson love this course, under Digital Design 1, because it allows them to be creative. The opportunities are endless with this certifications. Certification holders create e-books and digital publications, including magazines and newspapers. All content with this software, is suitable for composition on tablet computers.

Adobe Dreamweaver®

This proprietary web development tool, gives the students an opportunity to create, publish, manage websites and mobile content. As a 4th installment to the Adobe Suite offered at Boyd Anderson, students are able to combine visual design surface of web content while coding. Upon successful completion of this certification, students will earn a substitution credit in college mathematics and/or science.

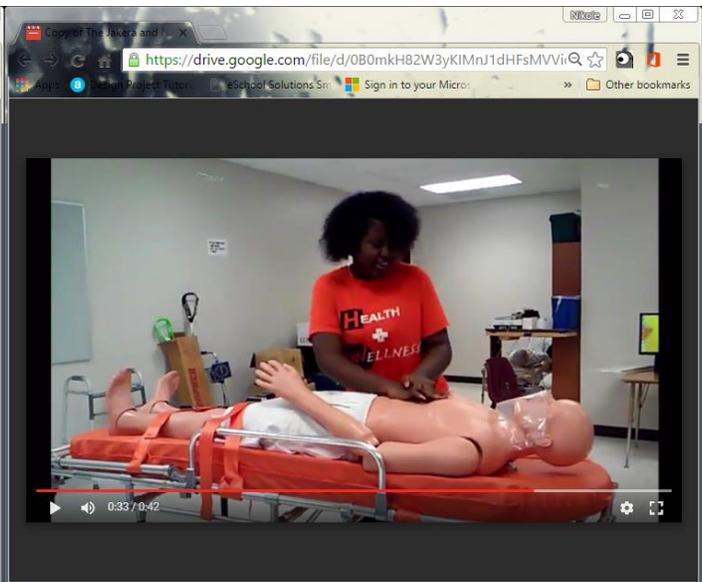

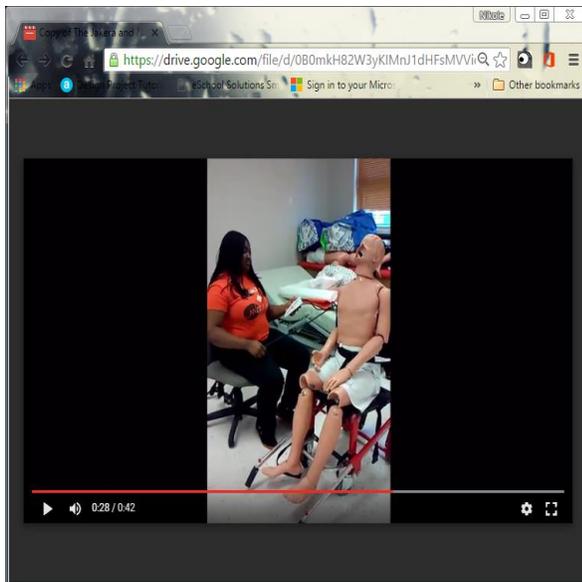

Introduce a girl to engineering day

The City of Lauderdale Lakes and Acai Associates, Inc., came out to show the young ladies of Boyd Anderson what it takes to become an engineer. This national movement inspires them how creative engineering is and how it has shaped the world.

Employment of healthcare occupations is projected to grow over 15 percent in the coming years. It's a profession that will continue to grow, much faster than any other occupation, adding about 2.3 million new jobs. The Health and Wellness Program at Boyd Anderson, offers many opportunities in the medical field. Students are able to specialize in courses related to sports medicine, health services and technology, nutrition and dietetics, mental health and sports and health administration. The students are prepared a State certificate in Electrocardiogram (EKG), Certified Medical Administrative Assistant and Personal Training. In addition, we are pleased to announce, that Boyd Anderson has an EMT program partnership with McFatter Technical College.

Culinary Arts 1-4

Boyd Anderson welcomed 2 new culinary teachers, this school year. Chef Wilkins and Chef Carter, have done a great job with the students. 2 Industry Certifications are offered through this program. The ProStart program puts students on a path for careers in the foodservice industry. ServSafe Food Handler Program allows them to deliver consistent food safety training. The intro level course, covers workplace kitchen/restaurant safety and the history of food. Students in culinary 2, learn the guidelines of food service and the duties of the restaurant. Level 3 of the program, the students engage in researching opportunities in professional cooking and baking. Finally, the students have the experience and knowledge, to prepare various meals and food products.
