

**Mr. Malhao - New for 2020-2021 year**

Students in Mr. Malhao's classroom will be challenged, entertained, and grow more than they thought possible. Mathematics is my passion. I am committed to helping each of my students develop a love, respect, and appreciation for the mathematical concepts that we will learn. Math is not only an important school subject, but more particularly an important subject for life. This is the year students will foster and expand on their love of math.

**Student Supplies:**

1.5 or 2-inch binder (we do take a lot of notes and anything smaller will not close and they will lose important notes and papers)

Divider tabs

Filler Paper (again, we take a lot of notes and they will need a lot of paper)

Pencils

Pencil sharpener (if not using mechanical pencils)

Erasers

Wireless Mouse (**optional** to make things easier for them on the computer)

Highlighters

Ruler

Coordimate Self Inking XY Graph Stamp Clear and Red, Inch Measurements (**optional** but very helpful and found on amazon or coordimate.com) This is something that will last a long time and they will use in Algebra 2 and Geometry.

## **Remind App/Messages**

Students will be signing onto Remind. Remind is an app that will allow me to send my students a text with their homework for that night, reminders of any upcoming quizzes, and reminders of any upcoming tests. If parents would also like to receive these messages, please follow the directions below:

Gem 6 students will send a text to 81010 and the message will be @malhao7

Gem 7 students will send a text to 81010 and the message will be @nmalhao6 **(If they were in my class already and used remind they do not have to do anything new)**

Then Please follow the instructions on the text that you receive. You will have about 3 steps to do on the phone.

This will allow the students and parents to always know what is expected for the next day and when there will be an upcoming test/quiz. This also allows the students who are absent, not to have to rely on any other students for any missed work.

**Parents, after your children register to remind, please be aware an email will be sent to the account you sign up with. It is important to read the email so that you can follow the last step. If the last step is not followed, I will not be able to send them any messages or responses when they send me an individual message.**

I look forward to seeing all of you at the beginning of the school year.
