

Parent link 4/2/2020

Last Call Laptops

Good evening parents. Sorry to bother you again but this parent link is for those parents that still need a device in order for their child to participate in online learning. If you need a laptop for your child, you need to email me directly at [sharon.boyd@browardschools.com](mailto:sharon.boyd@browardschools.com) In the email you will need to include the students full name, the name of the parent/guardian that will be picking up the device, that parents phone and email address. This information can also be found on the school's website.

You will receive an email from me stating the time tomorrow to pick up the laptop. I need to schedule pick up times to ensure everyone practices social distancing. So please adhere to your time!

As you know, Gov. DeSantis signed a stay at home order for the state of Florida which means that beginning Mon. April 6, no one will be at Lake Forest Elementary to provide you with a laptop as we will all be working from home. This matter is time sensitive so please email me tonight if you still need a laptop.

Thank you and stay Healthy!
