Greetings parents, this is Sharon Boyd your principal. We are almost at the end of the school year and what a different year it has been. Teachers will be assigning activities through Monday June 1st. We ask that you continue to use the laptops throughout the summer to continue student learning to maintain and build their skills. Your child's teacher will be providing you with websites and resources you can access throughout the summer. Please continue to visit our website for up to date information on next year's school schedule.

We are inviting parents to come to campus and drive through the parent loop next week to pick up your child's personal items and other resources that they can use over the summer.
