If you have a virtual student, and you are comfortable with them testing with their assigned teacher in the classroom on a face-to-face testing day, please contact your child's teacher and the front office in advance. Again, all students are required to test face-to-face. If your child has been learning remotely, but typically would ride the bus, transportation can still be available. Students who have been remote that utilize bus services will be transported on their normal route and will go home at the regular dismissal time and not immediately after testing. Parents of remote students who would like to sign their children out after testing may do so. Additionally, students who have been learning remotely, will need to be comfortable wearing masks for the duration of testing and while they are on campus. In following CDC recommendations, all students are required to have facial covering while on campus for safety. If you have any questions please feel free to call your child's teacher or the front office for more information.

Sincerely,
Mr. Eligon, Principal
