

- 2) Click the link in the email to update your password. Then, login at **login.curbsmart.net** or **download the CurbSmart Parent** mobile app, available on the Apple App or Google Play Stores. Enter your email address and password.
- 3) From the Home screen, you can

- a. **Check In to indicate that you have arrived on campus and are ready to pick up your student(s).**

The button will turn GREEN once the school has started dismissal. If you are within the approved check-in zone, you can select your pickup location (Park Side or West Side) and select your children. Teachers will be notified when you've checked in and will send your student to the release area shortly. If you are outside of the check-in zone, you will need to wait to check-in once you've entered the zone.

- b. **View Today's Pickup Schedule for your student and make changes.**

The cut-off time to make changes for that day is 1:30pm.

- c. **Create carpools.**

If your student will be riding home with another student, please create a carpool. When the parent of that child arrives, they will be able to check in for your student as well.

- d. **Add or change approved adults.**

Enter the other adults or family members who you have approved to pick up your child from school. You will need to enter their name and email address. Once you've added them, that person can register for their own CurbSmart account at [login.curbsmart.net](http://login.curbsmart.net) > Create an Account. They will enter their contact information, using the same email address you provided for them. Then, they will enter the school code (3815) and your child's placard number (found on the Home Screen). They will need to verify the child's birthdate and set a password. Once complete, they can also login to CurbSmart and check in to pick up your student(s) from school.

For questions on your account, please visit the CurbSmart Support site at <https://nutrilinktechnologies.com/support/curbsmart-help-parents/> or contact Mark Andriesse at Winston Park at 754-322-9000 or via email at [mark.andriesse@browardschools.com](mailto:mark.andriesse@browardschools.com) .
