AWESOME OLSEN MIDDLE SCHOOL  
COURSE AND PATHWAY SELECTION  
(2019-2020)

### BUSINESS

Includes curriculum used to create and market the Culinary Arts area of business. Appropriate industry certifications will be aligned to this academy. This academy includes, but is not limited to, the skills and attitudes associated with a broad range of occupations relating to careers in marketing, as well as reinforcement of academic skills through classroom instruction and applied laboratory procedures.

### ROBOTICS AND MARINE SCIENCE

Integrates collaboration with the Florida International University (FIU) Research Institute and supports students pursuing college and careers in STEM and Robotics. This academy includes, but is not limited to, instruction in intermediate keyboarding, word processing, electronic presentations, computer programming, internet, spreadsheets, and skills for business applications. It also includes content and skills related to robotics and automation, artificial intelligence, electronics, physics, and principles of engineering.

### HOSPITALITY and TOURISM

Supports students pursuing college or a career in the hospitality and tourism field, one of Florida's largest career markets. This academy includes, but is not limited to, the management, marketing, and operations of restaurants and other food services, lodging, attractions, recreation events and travel related services. Reinforcement of academic skills occurs through classroom instruction and applied laboratory procedures.

### EDUCATION

Supports students pursuing college or a career in the field of education. The content of this academy includes, but is not limited to, the development of leadership skills; communication skills; and employability skills; resource management, exploration of careers in the field of education; the importance of health and safety in the learning environment; developmental stages of children and appropriate learning activities; observation of children, and the use of technology in education-related careers.

### MEDIA & MUSIC CONSERVATORY

Supports students pursuing college career in the performing arts or multi-media. The content of this academy includes but is not limited to the development of music composition, performance, and theory. The multi-media track focuses on using mass communication such as broadcasting, publishing, and social media to promote, market, and/or inform.
