

## Elective Choices for Students 2022-2023

Students were given a course card to make elective choices for the school year 2022-2023. Students will pick five choices in order of preference. Every effort will be made to give students one of the electives selected that fit within the master schedule.

All students will take at least one elective. Some will take reading while others will take a second elective. The need for reading will be determined by FSA scores and other data. Sixth Graders in the Cambridge Program will take Cambridge Global Perspectives as one of their electives and may choose from the middle school (MS) electives, high schools (HS) electives and Cambridge electives listed for their second elective. Students not in Cambridge may choose from all middle school (MS) electives. Cambridge is an accelerated program within Westpine Middle School which requires application.
