The faculty and staff of Attucks Middle School look forward to meeting with you virtually during our Open House. This visit will enable you to become familiar with our highly qualified instructional staff as well as provide an overview of Attucks Middle School as we continue with our district's E-Learning model. Virtually meet your child's teachers, gain first-hand knowledge of how the school day will look, and become acquainted with procedures and expectations. We look forward to a great school year!
