What if my student is performing below grade level?

This situation can happen, and teachers and schools have many strategies and programs to help accelerate your student's learning. Having this information can help you, your student, and their teachers have the right conversations to make the needed progress.

What does it mean if my student scored lower on the second Diagnostic than the first?

A lower score does not mean your student did not learn or lost skills. Scores can be affected by things like stress, distraction, taking the Diagnostic in a different place, and receiving help. This can be particularly common when students are learning in different environments and under unique circumstances. Teachers take this into account and use the data from *i-Ready* as one of many tools to understand your student's unique needs and progress.

What can I do to help my student?

- **Discuss these results with your student.** Celebrate their strengths and progress, and collaborate with them on planning how they will reach their goals.
- **Reach out to your student's teacher** to get more ideas and resources to support your student in specific domains and/or skills.
- If your student uses *i-Ready Personalized Instruction*, **review their progress** on the student dashboard and support their learning at home with these [tips](#), which can be found at i-ReadyCentral.com/PDFs/Fridge-Tips-for-i-Ready-Lessons-at-Home.
