

Greetings Fort Lauderdale High School Family,

As a reminder, due to the coronavirus threat to our community, our school and all District schools are closed now through spring break.

To maintain ongoing communications and to ensure everyone is informed, the District has provided information on several important topics including meals available to students and families at school locations, childcare assistance, spring break camps and more.

For this, and other important information and resources on what you should know about coronavirus, visit the District's website at **Broward schools dot com forward slash coronavirus ([browardschools.com/coronavirus](https://www.browardschools.com/coronavirus))**.

Updates will be provided as new information becomes available.

Keeping our students, staff and families safe and healthy is our primary focus.

We appreciate your patience and flexibility as we work together to get through this unprecedented event.

Take care,

Principal Erin Brown
