

Computer Software remote update installation:

Broward County Public Schools has pushed out an update for student laptop device drivers to correct problems with microphone and sound issues. Please look for the following prompts to ensure the update has installed correctly.

1. Sign into your child's **Clever** account:

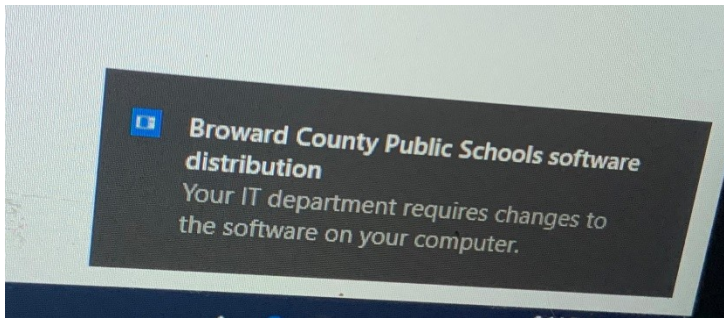

2. Click the **CANVAS** icon:

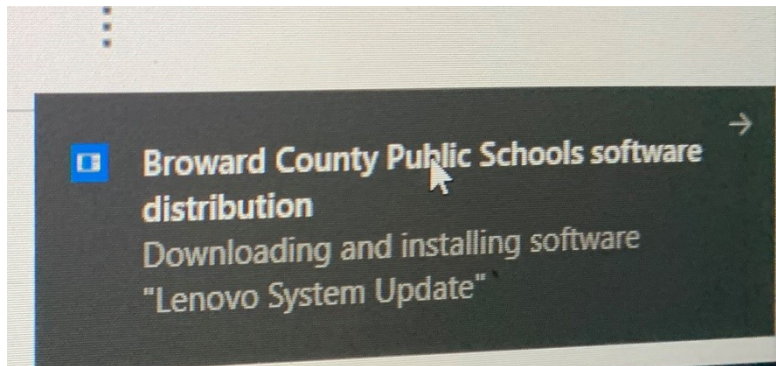

3. Once you are logged into CANVAS, watch the *lower right hand corner* of your computer screen, as you will be

Computer Software remote update installation:

prompted to **install the updated software (CLICK THIS BOX)**:

4. After completing step 3, you will see this message that your download is installing:

5. The update download should take approximately 2 minutes to complete:
