Water Smart Broward offers low or no cost swimming lessons for children ages 6 months to 8 years old.

Drownings are quick and silent

Drownings can happen in as little as a few seconds. Children who drown generally do not scream, splash or struggle.

There are multiple layers of protection that can help prevent childhood drownings. These include door/window alarms, pool fences and gates.

Many drownings occur when a child leaves the house undetected. It is important to keep close and constant supervision.
