

Suggested Summer Reading List 2022 for Children entering 1st and 2nd grade

A wonderful way to bond with your children at any age is by reading together and sharing thoughts about the books you read. Reading a variety of texts builds knowledge so that we can make connections and continually learn.

Whether it is basking in the sun at the beach, relaxing in the shade, cuddling at home before bed or traveling to summer destinations, books are the perfect addition to any summer activity. Remember you don't have to buy these books. Local libraries would love you to visit and take out books.

Here are excellent picture books, easy readers, graphic novels and chapter books that your children will enjoy all summer long.

Look What We Can Do! by Candy James
