

I AM ENOUGH

PLEDGE

Creating a school environment where everyone feels comfortable being exactly who they are, where differences are not just tolerated but embraced.

I will:

- Encourage my friends to embrace who they are
- Always stand up against intolerance
- Never be afraid to share what makes me unique
- Always feel confident I am welcome here exactly as I am
- Never give up on helping others see how much they have to offer
- Never change who I am for someone else
- Remember that the amount of "Likes" I receive on social media does *NOT* define who I am

I will do all of this because “I AM ENOUGH”
