August and September 2020

**Theme for the Year: Creating a Firm
Foundation on Unfamiliar Ground**

Usually, foundations are laid after surveying the land and completing a long list of prep work. That is the most optimal way to start building something from the ground up. North Andrews Gardens is dedicated to thinking outside of the box in our efforts to find new and innovative ways to continue building young minds. We recognize and celebrate their different learning styles, different personalities and diverse backgrounds. It is our goal to continue to create firm steppingstones for these young scholars during this eLearning adventure!
