THE NATION'S LARGEST FULLY ACCREDITED SCHOOL SYSTEM

Schools of Broward County

"An Educational Program with Something for Everyone"

Exceptional Student Education

Close to 20,000 students benefit from this program. Ranked among the most comprehensive and progressive in the United States, specialized programs—from preschool through adult—are offered for emotionally, mentally or physically handicapped; hearing or visually impaired; learning disabled; speech/language impaired; and gifted students.

Vocational, Technical and Adult Education (VIAE)

VIAE spans an extensive range of career opportunities, from surgical technology to nursery operations and a host of marketable job skills in between. Over 60 occupational programs are taught, including business, industrial, trades, medical, marketing, communications, public/personal services, home economics, agriculture, and tourism.

A special program called "Industry Services" is designed to help new and emerging industries in Broward County meet their current and future labor needs.

A variety of specialized adult education programs are available to provide academic remediation and basic academic skills, including preparation for the General Education Development (G.E.D.) diploma.

A county-wide network of adult and community schools offers a variety of courses in personal development, recreation, and issues confronting community members.

Student Services

In an effort to meet the challenge of educating students in a modern-day, urban society, Broward has gone beyond Florida's minimally prescribed student services program by expanding counseling services to students through peer counseling; addressing dropout prevention through numerous alternative education programs; and providing services to parents through family counseling and parenting education.

Magnet and Open Boundary Schools

Magnet schools are centered around a specialized curriculum such as music, science, pre-engineering, performing arts, foreign language, or a traditional learning program. These schools are designed to attract and motivate students as they encourage voluntary desegregation.

The world-famous, open boundary Nova schools offer varying programs. Students throughout the county may apply for admission to these research and development schools.

"Meeting the Challenge of Preparing Students for the 21st Century"

Broward County is located on the southeast Gold Coast of Florida between Palm Beach and Dade counties. It is the fastest growing county in Florida, and one of the fastest growing communities in the nation. This metropolitan area is comprised of a diversity of people, businesses, and communities.

Broward County Florida

Exemplary Programs

• THE BROWARD COMPACT—a five-year comprehensive educational plan for the school system was prepared with emphasis on working with business and industry to provide Broward graduates with jobs. This is one of Broward's showcase examples of community involvement with the public schools.

• An adopt-a-school program called "PARTNERS IN EXCELLENCE" has matched 95 schools with 50 different businesses in the community. These partnerships facilitate the achievement of school district and community goals.

• Among the 50 largest school districts in the nation, Broward ranks 1st with the smallest student-computer ratio—20:1. The Association of Educational Data Systems named Broward as one of the top ten school district leaders in computer education in the nation.

• Nova Middle School and Nova High School were accepted into the Coalition of Essential Schools—a nationally recognized program developed by Dr. Theodore Sizer of Brown University.

• The Saturday Screening Program serves kindergarten students entering public school for the first time. Parents accompany their children and watch the diagnostic process which includes a screening in the areas of the health and

education. Over 6,000 students attend the Saturday Screening Program each year.

• A homework assistance program called Homework Hotline was established. Over 5,000 calls have been answered so far—more than half of these calls have been math-related.

• A Drug/Alcohol Education and Prevention Program was recognized by the Governor's Commission on Substance Abuse as the most outstanding school-based program in Florida. The program was also recognized by the U.S. Office of Education as a model prevention/early intervention program in the nation. Every student (K-12) in the school system is exposed to course matter in this program through a comprehensive, sequentially developed curriculum.

• A Peer Counseling Program serves as a model for the U.S. Office of Education, and has been cited as "The Outstanding Preventive Program" by the National Schools Resource Network. This program, which teaches students how to help themselves by helping others, is the largest full-time program in the state and nation.

• An inservice training seminar on a newly-developed curriculum about the Holocaust was sponsored for secondary social studies teachers. The curriculum will assist staff in teaching this significant part of history. This curriculum is the first of its kind in the nation.

**"All the flowers of all
the tomorrows are in the
seeds of today."**

—Chinese Proverb

Broward County Public Schools is the eighth largest school district in the nation, and the second largest in Florida. The Southern Association of Colleges and Schools (SACS) has accredited every school and every center in the school district—making Broward's public schools the largest fully accredited school district in the United States. Each school or center meets more than 70 rigorous standards set by SACS.

Nearly 128,300 students (K-12) and more than 125,000 adults are offered educational programs at 98 elementary schools, 26 middle schools, 21 high schools, 3 area vocational centers, 2 adult centers, 8 exceptional student centers, 2 alternative centers, and 18 community schools. Over 13,500 permanent employees work to make the day-to-day operation of the school district a continued success. The school district is the largest employer in Broward County.

The school district operates as a county system without regard to individual city limits. However, the system is divided into three areas with an area superintendent responsible for each area. It is the responsibility of the area superintendents to provide principals, teachers, and students in their area with the necessary leadership to support school-based programs which carry out the policies of the School Board. This structure allows the school district to be more responsive to local community needs.

On the county level, the major central services are divided into four divisions: Instruction/Program Services; Government, Community and Employee Relations; Human Resource Management and Development; and Business/Support Services.

The School Board of Broward County, Florida is a seven-member board with each member serving a four-year term. The Superintendent of Schools is appointed by the School Board. The Board meets regularly on the first and third Thursday of each month at 10:00 a.m. in the Board Room of the Administration Building, 1320 Southwest Fourth Street, Fort Lauderdale, Florida. It also holds conference sessions every Tuesday at 10:00 a.m.

The goal of the Broward County Public Schools is to provide the best in educational opportunities.

Curriculum standards are set for excellence. Staff members participate in training and development activities designed to keep them informed and updated regularly in all aspects of their jobs. Administrators, teachers and support personnel are carefully chosen. The school district seeks only the most capable personnel to ensure an outstanding school program.

Students are challenged with opportunities to expand their talents to the utmost. Test scores year after year indicate achievement above or at national and state norms. Broward students receive an impressive array of awards, scholarships and other competitive honors. The Class of 1986 boasts thirty-five National Merit Scholarship recipients. Broward's graduates are accepted by the finest colleges and universities in the country.

The K-12 basic education program successfully integrates academics and the arts in a sequence of program objectives to meet and challenge the varied needs and interests of students at all levels of ability. Learning is carried out through a variety of multi-media instructional resources—thus exposing students to a broad realm of educational experiences.

The School Board outlines minimum standards of service for each educational level. Each principal implements those standards and increases them according to the specific needs of his or her school.

A state-of-the-art Instructional Television (ITV) system, owned and operated by the school district, provides a myriad of educational programs for students and the community. Many of these programs are produced at the ITV studios and broadcast to all schools via closed-circuit television. (Pictured: Norb and Oob, ITV characters from the READSAP program.)
