## GENERAL INFORMATION

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry, no matter how small, should be recorded to ensure the integrity of the financial data. This includes not only sales and purchases but also expenses and income. The document further states that regular audits are necessary to verify the accuracy of these records and to identify any discrepancies.

In the second part, the focus shifts to the management of cash flow. It highlights the need for a clear understanding of the company's current financial position and the ability to forecast future cash requirements. The document suggests implementing a system of budgeting and controlling expenditures to prevent overspending and to ensure that the company has sufficient funds to meet its obligations.

The third section addresses the issue of debt management. It advises companies to carefully evaluate the terms of any loans or credit agreements and to negotiate favorable conditions where possible. The document also stresses the importance of maintaining a good credit rating, as this can significantly impact the company's ability to secure financing in the future.

Finally, the document concludes with a discussion on the role of the accounting department. It states that the accounting team is responsible for providing accurate and timely financial information to management and to external stakeholders. This involves not only recording transactions but also analyzing the data to provide insights into the company's performance and to support strategic decision-making.

The following table provides a summary of the key points discussed in the document:

Section	Key Points
Record Keeping	Accurate recording of all transactions, regular audits.
Cash Flow Management	Budgeting, controlling expenditures, forecasting.
Debt Management	Evaluating loan terms, maintaining credit rating.
Accounting Department	Providing accurate financial information, supporting decision-making.

## BROWARD COUNTY SCHOOL BOARD

### Important Phone Numbers

Adult, Vocational and Technical Education	760-7400
Area Superintendents*	
-North Area	786-7850
-Central Area	497-1835
-South Area	797-4700
Early Childhood	768-8942
Exceptional Student Education	767-8544
Multi-Cultural Education	765-6901
Pupil Placement	765-6285
Safety Department	765-6300
School Curriculum	768-8924
Student Transportation*	
-North Area	960-2700
-Central Area	928-0267
-South Area	985-5290

\*The administrative areas for the schools are shown on the index pages at the beginning of the sections for elementary, middle and high schools. For other phone numbers, consult the white pages of the phone book under "Schools-Public" or call 765-6000.

### ITEMS NEEDED FOR REGISTRATION

- 1) Your child's birth certificate
- 2) Proof of your home address (rent lease or mortgage deed and a utility bill)
- 3) New residents to the State of Florida will be required to show proof of a physical exam which has been performed in the past twelve months.
- 4) A Florida Immunization Shot Form - Students from out of State must bring their immunization record to a county health department or a local doctor and have the information transferred on a Florida form.
- 5) A last report card and/or any test scores would be helpful.

## ABOUT BROWARD COUNTY PUBLIC SCHOOLS:

### Public School System

The goal of the Broward County Public Schools is to provide the best in educational opportunities. Broward County Public Schools is the eighth largest school district in the nation, and the second largest in Florida. The Southern Association of Colleges and Schools (SACS) has accredited every school and every center in the school district - making Broward's public schools the largest fully accredited school district in the United States. Each school or center meets more than 70 rigorous standards set by SACS.

In 1992, 180,000 students (Prekindergarten - 12) and more than 125,000 adults were offered educational programs at 113 elementary schools, 31 middle schools, 22 high schools, 3 area vocational centers, 4 adult centers, 8 exceptional student centers, 2 alternative centers, and 18 community schools. Over 19,000 permanent and part-time employees work to make the day-to-day operation of the school district a continued success. The school district is the largest employer in Broward County.

The school district is a county-wide system. Administratively, the system is divided into three areas - north, central and south. An area superintendent is responsible for each area. It is the responsibility of the area superintendents to provide principals, teachers, and students in their area with the

necessary leadership to support school based programs which carry out the policies of the School Board. All area superintendents report to the Deputy Superintendent. This structure allows the school district to be more responsive to local community needs.

On the county level, the administrative functions are divided into five divisions: Instruction; Personnel; Policies, Government & Community Relations; Training & Development; Business & Support Services; and Facilities, Property Management and Maintenance.

The School Board of Broward County, Florida is a seven member board with each member serving a four year term. The Superintendent of Schools is appointed by the School Board. The Board meets regularly on the first and third Tuesday of each month at 10:00 a.m. in the Board Room of the Kathleen C. Wright Administration Center, 600 Southeast Third Avenue, Fort Lauderdale, Florida. Conference sessions are held on alternate Tuesdays.

### Public School Enrollment:

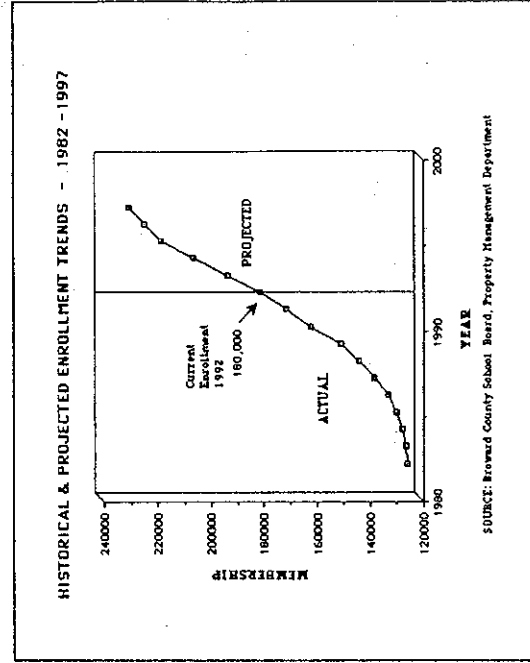

Table 15-1 lists the Broward County total public school enrollment for the 1987/88 school year through the 1992/93 school year. Over this period, total enrollment increased by 43,325 students. Most of the increase has resulted from growth in the elementary grades - Kindergarten through 5th grade.

**Table 15-1**  
Broward County Public School Enrollment 1987/88 to 1992/93

School Year	Elementary	Middle	High	Special Centers	Total
1987/88	65,553	29,403	40,149	1,545	136,650
1988/89	70,601	30,134	39,860	1,823	142,418
1989/90	76,159	31,577	39,342	2,018	149,096
1990/91	84,123	34,524	39,978	2,132	160,757
1991/92	89,633	36,135	41,742	2,368	169,878
1992/93	94,646	39,081	43,523	2,725	179,975

Source: Broward County School Board, Property Management Department

Figure 15-1 charts the historical growth in total public school membership, 1982-1992, and the projected membership through the year 1997. Significant growth will continue in the elementary grades over the next five years.

Figure 15-1

### School Facilities:

In 1987, the School Board adopted a five year capital improvement plan for construction of new school facilities and for the renovation and remodeling of existing schools and facilities. Funding for the plan was insured with the passage of a \$317 million dollar bond issue on June 16, 1987. The plan included site acquisition for and construction of twelve (12) new elementary schools; two (2) new middle schools and a high school. Additionally, almost all existing schools have been or will be renovated or remodeled. Additional capacity will be added to many schools.

In July 1989, the capital plan was updated to include five (5) additional new elementary schools and a new middle school. The plan update included renovation projects, replacement schools, asbestos abatement, and high school science renovations. The total additional funding required for the plan update was \$229,700,000. The School Board has approved the sale of Certificates of Participation (COP's) to help fund the additional capital needs.

At the end of 1992, twelve new elementary schools have been constructed and opened; three elementary schools are under construction and are anticipated to open in the 1993/94 school year. Four new middle schools are in operation and a new high school was opened in 1990. Additionally, many schools have been renovated and updated and replacement schools have been completed. District staff is currently formulating the next five year capital plan.

### Exceptional Student Education:

The Exceptional Student Education program provides comprehensive educational programs for all handicapped and gifted students. Exceptional Student programs

include services to students certified as Educable Mentally Handicapped, Trainable Mentally Handicapped, Profoundly Mentally Handicapped, Specific Learning Disabled, Emotionally Handicapped, Speech and Language Impaired, Autistic Deaf, Hard of Hearing, Partially Sighted, Blind, Physically Handicapped, Hospital, Homebound, and Gifted. Ranked among the most comprehensive and progressive in the United States, approximately 24,000 students benefit from these programs.

The following recent changes have been implemented in Exceptional Education programs:

- The Parent Education Network has been training parents of exceptional students.
- The Exceptional Student Education staff and parents have jointly developed a Parent Primer which tells parents of exceptional students about their rights and responsibilities.
- Special Education is now provided to all handicapped three and four year old children.
- Family counselors provide services to elementary and middle school emotionally handicapped children and their families.
- A program for identifying gifted students from under-represented groups is being piloted.
- Two new centers for severely emotionally disturbed children have been built. The programs integrate mental health services with education.

### Vocational and Technology Education (VTE):

Vocational and Technology Education (VTE) programs cover virtually every career field in

Agribusiness and Natural Resources Education, Business Education, Health Occupations Education, Home Economics Education, Industrial Education, Marketing and Diversified Education, Public Service Education and Technology Education. These programs are on the cutting edge, constantly evolving to keep pace with changes in technology.

Over 60 different occupational programs are taught providing training for careers that include nursery worker, bookkeeper, nursing assistant, child care aide, bank teller, travel agent, engineer, auto body technician and corrections officer.

The Academy of Finance and the Academy of Travel and Tourism, partnerships between the district, the National Academy Foundation and local business, are offered at ten area high schools. The Academies offer rigorous, two-year multi-disciplinary programs that prepare the students for a career, in either finance or travel and tourism.

More than 145,000 full and part-time students are enrolled in vocational education courses in 30 middle schools, 22 high schools and three full time centers: Atlantic Vocational Center, William T. McFatter Vocational-Technical Center and Sheridan Vocational-Technical Center. Courses are also offered at 25 community schools and numerous off-campus sites throughout the county, such as hospitals, industry sites and correctional facilities.

Taught by highly trained instructors using state-of-the art equipment, students who complete Broward's programs enter the

workforce with the most up-to-date skills needed to succeed in today's competitive environment. In addition, more than 67 advisory committees comprised of industry professionals make invaluable curriculum recommendations.

Industry Services Training is a specialized VTE program designed to serve local business, industry and government by providing a cost effective means to train employees to meet current and future labor needs.

Additionally, courses are provided to update technical skills to meet industry standards and requests. Some examples are: Master Cam and Smart Cam softwares for improved precision machining training, Computer Aided Design (CAD) courses, Child Care Services Program, Coder Specialist Program and Instrumentation Technician for Health Occupations and a skills lab located at Sheridan Vocational-Technical Center.

Another project under the department's responsibility is TECH PREP, which provides a coordinated, sequenced program of academic and technical courses that starts in the ninth grade and leads to the completion of a two-year certificate or Associate of Science Degree program.

Broward County has received national recognition for numerous innovative programs, such as Ford Automotive Student Services Training Program (ASSET), General Motors Service Technology Training Program, the Centers for Electronic Emphasis, an apprenticeship program and Auto Body Technical (ATT) which leads to an Associate of Arts Degree.

### Adult and Community Education

Adult and Community Education is the largest instructional area of the School Board. Instruction is provided to over 337,000 residents of Broward County, Florida. *Adult Education* covers instruction in basic skills (literacy, English as a second language, high school completion, and GED Preparation). *Community Education* provides instruction and services which address unique community needs.

Special programs and services are designed to address the unique needs of handicapped adults, minorities, the homeless, Project Independence clients, Eligible Legalized Aliens, parents, inmates in correctional facilities, the elderly and senior learners. Extensive cooperative agreements and partnerships with community based organizations, business, industry, churches, and governmental agencies exist to insure educational and support services.

The age range for participants is birth through the nineties. Broward County utilizes 21 schools as Community Schools thus, enabling maximum utilization of facilities between the hours of 7:00 a.m. and 11:00 p.m. Adult General Education instruction is also available through six (6) comprehensive centers for adults (including three (3) vocational centers). Instruction is also available for adults at off-campus locations throughout Broward County. These sites include malls, shopping centers, housing complexes, congregate living facilities, churches, libraries and community centers.

### Student Services:

To meet the challenge of educating students in a modern day urban society, Broward has developed a comprehensive program of student services. The program includes

Broward Advisors for Continuing Education, Career Education, Evaluation and Testing, Family Counseling, Guidance and Counseling, Health Education Services, Jobs Network, Prevention Programs, Psychological Services, School Social Welfare and Attendance, and Volunteer Services. The departments provide coordination of curriculum and support services to schools so that they may implement programs which assist students, school staff and families of the students.

Student Services plays an integral part in assessing student academic, psychological and social strengths and weaknesses, communication and learning skills, aptitudes and interests. A comprehensive guidance curriculum helps students with career and post-secondary educational planning, with social and personal development and building self-esteem. The health curriculum addresses HIV/AIDS education, nutrition, human sexuality, drug education, gun safety and other aspects of healthy development. Peer counseling and other prevention programs further assist students in achieving their goals. Through joint funding by the Broward County Commission, Student Services provides family counseling at no cost to families in various school sites throughout the district. School volunteers provide additional assistance to teachers and students in all schools.

### Special Programs

The Special Programs Department provides educational support programs for more than sixty thousand (60,000) educationally and economically disadvantaged children in the Broward County School district. These programs include Dropout Prevention, Chapter 1 Basic/Migrant, Performance Improvement Program (PIP), Home Instruction Program for Preschool Youngsters (HIPPY) and Indian Education.

### Dropout Prevention

The Dropout Prevention Program is an organized system of instruction and services designed to address the educational and personal needs of identified students whose school success requires specific support and services. Structured support and services are provided to students in the traditional school setting, in alternative schools/centers and in specified HRS facilities. These programs include students who are unmotivated or disinterested, teen parents, disruptive or delinquent students and others who need programs that address substance issues.

### Chapter 1 Basic

Chapter 1 Basic provides financial assistance through state educational agencies to local educational agencies to meet the special needs of educationally deprived children in school attendance areas with concentrations of children from low income families, as well as children in location institutions for the neglected or delinquent.

### Chapter 1 Migrant

The Migrant Education program is a federally funded compensatory program designed to provide for the unmet needs of the children of migratory workers and fishermen who are enrolled within the public schools in the district.

### Performance Improvement Program (PIP)

The Performance Program is designed to improve achievement and to help students enhance their self-concepts, improve behavior and have a positive attitude toward school.

### Home Instruction Program for Preschool Youngsters (HIPPY)

HIPPY is an educational program for disadvantaged children and their parents. Through weekly contact with a home visitor, parents are provided skills needed to teach

their children at home, using structured educational materials.

### Indian Education

The Indian Education program helps low-achieving Indian students overcome academic skills deficiencies

### Magnet and Open Boundary Schools:

Magnet schools are centered around a specialized curriculum such as music, science, pre-engineering, performing arts, foreign language, or computer/high technology. These schools are designed to attract and motivate students as they encourage voluntary desegregation.

Magnet programs are programs which have a unique course of study and open or extended boundaries. They may be open to students only in a particular area or open to all students in the County. Transportation is provided for students residing more than two miles from the school. The current magnet schools include:

### HIGH SCHOOLS:

*Science/Pre-Engineering Programs - Ely High School* This program is a rigorous four year course of study for students who plan to continue their education in the fields of Engineering, Science and Technology. Students participate in state, national and international competitions.

*International Studies - Hallandale High School* The four year International Studies program focuses on a study of cultures through language, art, music, economics and political science. Working in cooperation with Florida International University, students attend speakers' series and cultural events as well as interact with University faculty and students.

### Performing Arts - Dillard High School

The Performing Arts Program offers training in

dance, voice, instrumental and electronic music and other performing arts areas. Students also take coursework in stagecraft and costume design. Performances in the community complement the students' regular performing schedule.

**Computer/High Technology - Dillard High School** - This program integrates curriculum and technology. Students will explore technological uses of equipment in basic curriculum and in business, drafting, performing arts and other specialized areas.

**International Baccalaureate - Boyd Anderson High School** This is a two year course of study leading to examinations for the Baccalaureate diploma. This program is designed to educate the whole person through a rigorous liberal arts curriculum which includes a community service requirement. The pre-International Baccalaureate program offered in grades 9 and 10 will prepare students for the actual coursework requirements of the International Baccalaureate program.

#### MIDDLE SCHOOLS:

**Performing Arts - Parkway Middle School** The Parkway Performing Arts Program parallels the Dillard Program. The program encompasses a wide variety of music, art, dance, drama, and technical arts offerings. Highly interested and motivated sixth to eighth grade students are invited to interview for the program.

**Computer/High Technology - Parkway Middle School** The use of computers and technologically advanced equipment to aid the learner in the educational process is the focus of this program. Allowing students to progress at their own rate and monitor their progress will attract students with diverse educational needs. The role of the teacher as imparter of knowledge will change to that

of coach and facilitator.

Both Science/Pre-Engineering and International Studies are offered in each geographic area, at McNicol Middle (south area); Everglades Middle (central area); and Crystal Lake Middle (north area).

**Science/Pre-Engineering** The curriculum focuses on a study of the South Florida environment through extensive field and laboratory experience. Guest speakers, high tech equipment and a specialized curriculum are offered.

**International Studies** This program develops an understanding of the world through language, art, music and cultural studies. Spanish and French, as well as Foreign Language Humanities will be offered.

#### ELEMENTARY SCHOOLS:

**Performing Arts - Walker, Bethune, Deerfield Park and North Andrews Gardens Elementary Schools:** In addition to the students' basic academic education, training in art, music, drama and dance is offered. Kindergarten through fifth grade students are eligible for elementary performing arts programs.

**Science, Mathematics and Technology: Colbert, Broward Estates, and Charles Drew Elementary Schools:** Science labs, mathematics labs and computers in the classroom are parts of this exciting hands-on instructional program for elementary students. Science and mathematics specialists introduce students to the wonders of science and the applications of mathematics, allowing students to explore their environment in the learning process.

#### Nova Schools:

The nationally recognized Nova schools - Nova Eisenhower, Nova Blanche Forman, Nova Middle, and Nova High School - offer varying

programs. Students throughout the county may apply for admission to these schools. Parents should contact the Nova Office at 765-6046 for information.

#### Exemplary Programs:

The district's strategic five-year plan, *Focus: 2000*, encompasses eight district-wide goals that have been designed to coincide with other state and national education initiatives. The district's goals for 1991-96 have been developed through a participatory process involving school, home and business. Each school and department has developed a one-year plan for addressing district goals. School Improvement Teams (SIT) have been developed at each school. These teams are addressing ways to achieve the goals.

An adopt-a-school program, *Partners In Excellence* has matched 162 schools and 15 programs with 152 different businesses in the community. These partnerships facilitate the achievement of district and community goals.

**Computers** - Broward County's student to computer ratio ranks first among the 50 largest school districts in the nation with a student/computer ratio of 10:1. The Association of Educational Data Systems has named Broward as one of the top ten school district leaders in computer education in the nation.

**Homework Hotline** is the district's outreach effort, a homework assistance program which was established in 1984. More than 100,000 calls have been answered in every curriculum area. Each Wednesday, math related questions are answered on live television through the ITV Homework Hotline, a game show style assistance program. There are also fifteen walk-in homework centers located throughout the County.

**New teaching methods** are used in district pilot programs. The Nova Elementary, Middle and High Schools are among only 24 schools accepted into the Coalition of Essential Schools - a nationally recognized program developed by Dr. TheodoreSizer of Brown University. Coalition programs help students learn by strengthening critical thinking skills.

The **Saturday Screening Program** serves Kindergarten students entering public school for the first time. Health screening teams provide parents with diagnostic screening services for children in the area of health and education. Over 6000 students attend the Saturday Screening Program each year.

A **Drug/Alcohol Education and Prevention Program** was recognized by the Governor's Commission on Substance Abuse as the most outstanding school based program in Florida. The program was also recognized by the U.S. Office of Education as a model prevention/early intervention program. Every student (K-12) in the school system is exposed to course material through a comprehensive, sequentially developed curriculum. "Just Say No" and Students Against Driving Drunk (SADD) clubs are established at almost every school. The district is also involved in a "Just Say No" program countywide and a Red Ribbon Week each October.

A **Peer Counseling Program** serves as a model for the U.S. Office of Education and has been cited as "The Outstanding Preventive Program" by the National Schools Resource Network. This program, which teaches students how to help themselves by helping others, is the largest full-time program in the state and nation.

**Innovative Curriculum**, an inservice training seminar on a newly developed curriculum about the Holocaust was sponsored for secondary social studies teachers. The curriculum assists staff in teaching this significant part of history. This curriculum is the first of its kind in the

nation. The middle school child receives even extra support. A teaming approach to instruction helps students continue to build self esteem while making a positive transition to a broader range of experiences.

#### **Community Support**

More than 16,000 parent and other adult volunteers work with students in the schools. Every school and area, as well as the district itself, has an advisory council including parents, other citizens, teachers and students. The School Board has established a link with the County of High School Student Councils and consults regularly with student leaders.

#### **Volunteers Assisting Students and Teachers (VAST)**

Broward County's School Volunteer Program supports school-based volunteer programs in Broward schools. As such, VAST assumes the responsibility for recruiting volunteers from the community-at-large; for training volunteers, teachers and school-based volunteers on the district level and for providing the structure and materials needed for an organized program. In addition, VAST responds to special needs identified by the schools or district by finding the resources and/or developing specific programs to help meet those needs.

VAST volunteers assist in classrooms, clinics, media centers, school offices, and in physical education, music, art and exceptional education classes. They offer assistance by tutoring, helping with enrichment activities, performing clerical duties and assisting with special school-wide projects. In addition to these core volunteer activities, VAST coordinates and implements the following special school volunteer programs in the schools:

**LISTEN TO CHILDREN** - extends the effectiveness of the guidance counselor by providing trained volunteers to listen to children who are having interpersonal problems. Co-sponsored with the Mental Health Association, the Listener program focuses on grades 1-5.

**MEET THE MASTERS** - is an art appreciation program utilizing volunteer presenters. The trained volunteers present two related art prints every six weeks to K-5 classes. The volunteers highlight the artists' backgrounds and lead the students to discover the different styles, techniques and media used by the artists. Meet the Masters is currently being implemented in 30 elementary schools.

**SENIOR MENTORS FOR CREATIVE STUDENTS** -pairs creative and outstanding senior citizens with creative and talented students who have a similar interest. Mentors and students work together on special enrichment projects. Annually funded by a grant from Chevron USA and the Florida Department of Education, the Senior Mentor Program focuses on grades 2-11.

**SUPERSTARS** - designed for students who need challenge and motivation for solving work and logic problems. This enrichment program is designed to be managed by a school volunteer and supported by administrators and classroom teachers. Originated by the Florida Department of Education. SUPERSTARS focuses on grades 1-5.

**CITIZEN INVOLVEMENT** - Broward County encourages citizen involvement at the school, area and district level as well as to provide input to county staff and program coordinators in developing curriculum. PTA and PTO also assist at the school and throughout the district.
