<sup>1</sup> request is.	<sup>1</sup> So I think that that's a distinction.
<sup>2</sup> MR. MAYERSOHN: Okay. Appreciate it.	<sup>2</sup> But we can certainly ensure, to your point
<sup>3</sup> Dr. Lynch-Walsh.	<sup>3</sup> Ms. Fertig, that if something is requested and it
<sup>4</sup> DR. LYNCH-WALSH: I was going to wait until	<sup>4</sup> is definitely a public it's public information
5 Nathalie Lynch-Walsh. I was going to wait	<sup>5</sup> and it is money that the school advisory council
<sup>6</sup> until this came up with internal funds, but	<sup>6</sup> votes on and they take motions and they identify
<sup>7</sup> there's a motion that was passed last year at	<sup>7</sup> initiatives that support the goals of the school
<sup>8</sup> DAC, it was passed unanimously on May 8th, 2019,	<sup>8</sup> improvement plan, then we can certainly make sure
<sup>9</sup> and the motion was, we move that the audit	<sup>9</sup> the school's administration provides and
<sup>10</sup> department review the school advisory council	<sup>10</sup> that's not just for Cypress Bay, that's for any
<sup>11</sup> school accountability funds when they audit the	<sup>11</sup> school, but I will go on further to say that even
<sup>12</sup> school's internal accounts. So they're trying to	<sup>12</sup> though we, physically, closed schools, many
<sup>13</sup> follow up on that and find out from Dr. Nesmith	<sup>13</sup> schools still ran virtual tutoring activities and
<sup>14</sup> and Mr. Jarvis what the response was because,	<sup>14</sup> virtual opportunities for students outside of the

The board does have, as you said, within its power to reduce, and that is the motion that a number of other advisories, DAC, the Facilities Task Force, I think Human Relations, possibly the Diversity Committee, but a number of groups have passed the motion to reduce, temporarily reduce, because I think there's a 90-day limit, the number of people required for physical quorum to say three to five, and that would allow because most groups are getting three to five people, but DAC requires, I think, 20 people to meet quorum, we require 11 on the Facilities Task Force, and I can't get past about six or seven people willing to come in. So our December meeting is likely to be quote-unquote informational only.	Define Figure 01 of D1. Wack. And how Know what         Page 24         1       he was going through. So I'm more sympathetic         2       here than ever.         3       But I don't see the harm in us passing this         4       motion. I believe it's going to come to pass         5       anyways. I'm also a member last night I went         6       to the City of Fort Lauderdale Planning and         7       Zoning Board meeting, which we're still allowed         8       to do, virtually, and I'm really surprised that         9       the district, given what they're doing with         10       distanced learning, has not come up with a         11       similar in-person virtual method of holding a         12       meeting. But I would like to see us pass this         13       motion as a good first step in getting the next         14       meeting to be virtual. And I kind of think the         15       timing of that will happen anyway. So I would         16       hope you all would vote for this motion and I         17       know we need to move on. But I'm aware of the         18       other moves, I just think this is the motion to

I'd like to please ask the committee for more specific language, because I think that which is different from what Dr. Lynch-Walsh said, which is to reduce the quorum. It's the definition of requiring the physical presence for advisory committees, I believe, is what you're alluding to, Mr. Mayersohn. So we wouldn't lower the quorum, we would change the definition of in-person quorum. That's what I was sort of thinking is that the words would be too broad. MR. MAYERSOHN: Number one, I believe that our bylaws don't require don't say in-person quorum. They just say quorum. That's number one. Number two, is that and, again, I'm not an attorney, so I have to preface that, but in reading Attorney General's advisory opinions, they talk about governing boards that make ordinances, resolutions, binding binding information. We do not. 15	of it's not that it's not appreciated and not	<sup>15</sup> MR. LUKER: I cannot assure that.	
16	that it's not, you know, an important piece, but	<sup>16</sup> MR. MAYERSOHN: Okay. Okay. Those are n	ny
17	I just want to, again, kind of bring us back to	<sup>17</sup> questions.	
18	where we're at to make sure that we can get a	<sup>18</sup> All right. So we have a motion to transmit	
19	follow-up, because this brings something new and	<sup>19</sup> with the additional motion that we have?	
20	different to the table. And whether or not the	<sup>20</sup> DR. LYNCH-WALSH: So moved.

7	of these things is being measured. Both sides	7	DR. LYNCH-WALSH: Well, yes and no. Because
8	have to agree to what is being measured, how it's	8	the thing is, yes, it is more specific in the
9	going to be measured, and then once you figure	9	PMOR RFQ, and, certainly, those could be changed
10	that out, how much weight you're going to assign	10	or revised but as long as everybody's starting
11	to each thing you're measuring.	11	there, because this is part of the contract. And
12	That has been a point of confusion, it seems,	12	this would, in fact, become part of the contract,
13	for over three months on the PMOR side.	13	as well.
14	So, I guess, if I have a question in there, I	14	So there should be sort of a bridge where you
15	don't know, because this kind of goes outside the	15	start with what's in this case of the PMOR, I
16	scope of this, but because it would have it	16	think it's 6.7.9, you start with those objective

24	MR. JABOUIN: Mr. Castaneda, I was unsure if	24	they're very hard working. As the members of
25	we've already covered Item Number 14 or is there	25	committee know, they produce a very high-quality
1 2 3 4 5	anything with respect to the required communications that you'd like to share with the committee? MR. CASTENADA: No, unless they had any specific questions on these required	1 2 3 4 5	document. The sheer size and volume and transactions that Broward Schools has, to get it into this readable format is extensive. So they are of quality if that is your and I can't thank them enough for all their hard work in

19	MR. MAYERSOHN: Yes, Ms. Pou.	19	MR. CASTANEDA: Not at the moment. However,
20	MS. POU: I just want to know if we're going	20	I will say again that, any findings or things
21	to get a management letter and when? And, also,	21	that we feel that would have to be brought up to
22	when are we going to get the single audit? I	22	the committee's attention would be communicated
23	believe that's Ms. Davis.	23	to you in January's meeting.
24	MR. CASTANEDA: Yes, those reports get	24	MR. DE MEO: Okay. Thank you.

3	established via Teams; if I'm understanding	3	to go fulfill those jobs, but I just think, from
4	correctly. Is that correct?	4	my own my own personal opinion, that's a long
5	MR. REYNOLDS: Yes, that is correct. And we	5	time to fill out a job description when you guys
6	have just to comment, BECON has worked on a	6	have been doing this for years, and years, and
7	number of varied solutions for various committees	7	years, and years, and know the qualifications
8	and board meetings and other meetings and we have	8	that somebody needs to have and what role and
9	made recent purchases that allow us to improve on	9	function they're doing. So
10	how some of those things are done. But every	10	MS. KOCH: I'll step in. Kathy Koch, Chief

12	and their location, is a unique situation to	12	about half done at this point and each one of
13	resolve.	13	them has been done pretty sensitively because
14	DR. LYNCH-WALSH: Okay. Thank you. That's	14	it's a combination of where the description

So that's a long time, to me, in the sense	14 15 16 17 18 19 20 21 22 23 24	an old job description that relates back to, you know, something that's archaic as well as somebody who might be in the line of retirement and now having to replace them and not having the job description to do that. So, you know, we have one open position and we are speaking to the superintendent on Monday. We're going to try to fill that in order to allow us to be back to where we were before the pandemic. So so our team is working on them but you, you know, we were impacted as well after we caught up on them.</li> <li>MR. MAYERSOHN: Any other questions, Mr. De Meo?</li> <li>MR. DE MEO: Thank you. And you did a good job to both the auditors and the schools and the fewer exceptions that we're seeing.</li> <li>MR. MAYERSOHN: Are there any other questions on the phone?</li> <li>MS. FERTIG: Motion to transmit.</li> <li>MR. MAYERSOHN: Wait, Ms. Shaw has a question first.</li> <li>MS. SHAW: I do want to say congratulations, but I do have a question.</li> </ul>	1       We have about nine minutes. Can you how         2       far can you stay past the 1:30 or is that the         3       solid cutoff?         4       MR. JABOUIN: We still have quorum.         5       MR. MAYERSOHN: Oh, we still have quorum?         6       MS. POU: Maybe another five minutes.         7       MR. MAYERSOHN: I think if we push, we can         8       I'm just saying.         9       MS. POU: I'm your spare, remember? I wasn't         10       going to be here so you'll still make seven.         11       MR. MAYERSOHN: Okay. Let's continue to go         12       through. So Item Number 17.         13       MR. JABOUIN: I'll talk fast. I believe the         14       only outside person, if he's out there, is Ron         15       Morgan from the Building Department.         16       So this is a Property and Inventory Audit         17       that was managed by Ms. Arcese, who also faced         18       some of the challenges that Ms. Conway did in         19       being able to complete this report. I also have         20       the same issue with the letterhead when we         21       Transmitted.         22       But to go right straight to the report,         23       please go to page 4

2	DR. LYNCH WALSH: Okay. And so my other	2	surplus, when they transfer. I mean, it's in
3	thing, having sat on this committee for five	3	layman's terms as far as what it should you
4	years now, when I worked in accounting we did not	4	know, what they should do once an item has been
5	have well, we had external auditors, but we	5	deemed, you know, obsolete.
6	didn't have our own audit department, so I was	6	If the department chooses to take that
7	the one that often wrote procedures and	7	information and imbed it into their department's
8	specifically having to do with inventory and also	8	procedures, I would hope that they're using the
9	accounts payable. But in here on page 18 in Mr.	9	business practice bulletin. Because that is what
10	Hamberger's explanation he's saying he'll add a	10	we refer to. That's usually what we refer to in
11	section to the department policy procedure manual	11	the audit findings when we have our
12	detailing aspects, the necessary steps required	12	recommendations.
13	to conduct the six month audit. And I've	13	DR. LYNCH-WALSH: Okay. So I'm going to
14	expressed concern before about the type of	14	suggest that there needs to be more than just the
15	communication to the different departments that's	15	business practice bulletin being given to them.
16	being made.	16	Because if everybody could understand it, then
17	Are they being handed an accounting bulletin	17	there would probably be less confusion. I mean,
18	and people who are not accountants are expected	18	I've been on this now for five years, and this is
19	to interpret it or is there at least boilerplate	19	nothing that you guys are doing wrong, it's just
20	language that's given to them?	20	a communication issue, where it's clear to you,
21	Because I'm concerned if different	21	from your perspective, what they need to do, but
22	departments are writing their own manuals related	22	it may not be clear to them because you're not
23	to accounting procedures. Because that's kind of	23	them and they're not you. So if people are
24	what it sounds like in here, as opposed to the	24	having people who can follow other rules with
25	department providing sort of a general manual	25	no problem are having trouble following these
	Page 150		Page 152
1	where you could insert the name of your	1	rules, then I'm gonna suggest that there may need
2	department here that starts with, good morning,	2	to be some additional context, framework or
3	how are you, please sit down at your desk and so	3	integration given to more instructions given
4	you take them through step, by step, by step, in	4	to the different departments, the schools,
5	terms of how they go about doing their day-to-day	5	whatever, so that they can follow these things.
6	to make sure that they don't end up with audit	6	MS. ARCESE: So I'm just going to add,
7	exceptions. Because if he's thinking he has to	7	according to the Tangible Personal Property
8	add a section to the policy and procedure manual,	8	Management Process Improvement Plan that we're
9	that's a concern for me. Because he's not an	9	working with SIM. That is one of the tasks that
10	accountant, he's not an auditor. He knows code	10	is part of the entire project, is to look at the
11	compliance as it applies to SREF Florida Building	11	business practice bulletin and make sure that it
12	Code, but as he admitted in his letter here, not	12	is a procedure that can be distributed to the
13	necessarily what to do when they're repairing	13	entire district. And we do need to update that
14	this printer, which, from sounds of it, was	14	information. So that is part of the project and
15	problematic.	15	that is being reviewed as well.
16	So just to restate my question, are they	16	DR. LYNCH-WALSH: What's it called, Tangible?
17	given a procedure manual written for non-accounts	17	MS. ARCESE: It's the Tangible Personal
18	non-auditors, or is the expectation that he has	18	Property Management Process Improvement Plan, and
19	to write his own procedures?	19	that's what we're working with the SIM program.
