Members of the School Board of Broward County, Florida

Members of the School Board Audit Committee

Ladies and Gentlemen:

In accordance with School Board Policy 1700, Office of the Chief Auditor (OCA), I am respectfully submitting the Proposed Audit Plan for the School Board of Broward County, Florida (the District), which consists of audit reporting, non-reporting, and other projects to be performed during the 2023-2024 school/fiscal year, for consideration and approval from the School Board Members and the School Board Audit Committee Members.

Objectives and Scope

The primary objectives of the OCA are to assist the School Board Members with their responsibilities as well as the School Board Audit Committee with their advisory responsibilities. We also assist District management in the performance of their strategic and operational responsibilities. The OCA furnishes reports, analyses, recommendations, counsel, and information concerning the activities reviewed.

Interim Superintendent

The scope of our internal audit work encompasses the examination and evaluation of the adequacy and effectiveness of the District's system of internal control and the quality of performance in carrying out assigned responsibilities. It is our responsibility to provide reasonable assurance that internal controls are in place to achieve the following:

- compliance with policies, plans, procedures, laws, and regulations;
- adherence to contracts and agreements;
- proper financial reporting;
- reliability and integrity of information;
- safeguarding of assets against unauthorized acquisition, use and/or disposition; and
- effective and efficient use of resources.

Audit Approach

In order to efficiently accomplish our primary objectives, we will continue to streamline the audit process to increase productivity within the OCA. We will continue to reallocate OCA resources to focus on the high-risk areas that are critical to meeting the goals, mission, and the strategic plan of the District. Our approach is to identify and quantify systemic problems and to determine if adequate internal control procedures are in existence which can prevent significant deficiencies from going undetected. In an effort to promote accountability at all levels of the District, reports and findings are summarized to provide useful information to District management.

Responsibilities

District management is responsible for setting operating standards to measure an activity's effective and efficient use of resources. District management is also responsible for establishing operating goals and objectives, developing, and implementing control procedures, and accomplishing desired operating results.

The OCA is responsible for assessing if:

- operating standards have been established for measuring economy and efficiency;
- operating standards are understood and are being met;
- policies and procedures are appropriately designed to mitigate risks;
- deviations from operating standards are identified, analyzed, and communicated to those responsible for corrective action; and
- corrective action has been taken.

Guidance

The OCA is guided by the Governmental Auditing Standards (“Yellow Book”) issued by the Comptroller General of the United States. The OCA is committed to implementing these standards which encompass:

- maintaining the independence of the internal auditing function from the activities audited and the objectivity of internal auditors;
- ensuring the proficiency of internal auditors and the professional care they exercise;
- determining the scope of internal auditing work;
- promoting ethical behavior and equity;
- planning and conducting internal auditing assignments; and
- maintaining quality control and assurances.

I believe that these Standards enhance and improve the quality of our work and the professionalism of our office.

Proposed Audit Plan Areas

The Proposed Audit Plan for the 2023-2024 school/fiscal year is based on a combination of internal resources and external consultants and includes required audits per Florida State Statutes and School Board Policies covering internal funds of schools and property and inventory audits of schools and various District departments. We will perform audits directed to us by the School Board Corporate and those areas communicated to us by the School Board Members during workshops.

Sincerely,

/s/ Joris M. Jabouin

SUMMARY OF AUDIT ACTIVITIES
FOR THE 2022-2023 SCHOOL/FISCAL YEAR

Prior Year Audit Results

The prior year and future year Audit Plans are planning tools and based on several assumptions at the point-in-time that they are created. Certain projects were not planned, but 55 projects were accomplished in accordance with their planned status of completion versus 60 projects in the Audit Plan. This was accomplished in a year with significant turnover at the School Board, Superintendent, and Cabinet level of the organization. At the same time, the OCA worked with seven (7) vacancies while fielding inquiries from the Florida Auditor General, Florida Department of Education, and law enforcement organizations. Our auditors worked on District projects to improve the control environment.

Some projects had overruns primarily because of significant issues noted in the projects that required additional attention. Some projects had overruns to satisfy the requests. One project was sent back to the Audit Committee at the request of an Audit Committee Member. These issues caused overruns that impacted the ability to work on other projects in the Audit Plan.

Our team's ability to complete 55 projects in a plan that called for 60 projects is a credit to the OCA team members. Completing 92 percent of a plan with a 22 percent vacancy was very challenging. Our team members are committed to their work despite extenuating circumstances encountered during the school / fiscal year.

Audit Reporting Projects (projects that yield a report)			
•	Schools Internal Funds Audit Reports	Audit Reports Issued Covering 50% Of FY '22 School Fund Balance	Project completed beyond its planned phase as of May 11, 2023. <i>Our office has completed 87 percent of the FY'22 school fund balance. We are on pace to complete 100 percent of the FY'22 school fund balance by June 30, 2023. Our unit was impacted by the lagging effect of the closure of schools into FY'21 that continued to impact our office throughout FY'21 and into FY'22 and FY'23. To accomplish this, we were required to re-allocate auditors and managers from other areas of our office to work on these audits. We are now current and on pace to remain current.</i>
•	Schools/Departments Property/Inventory Audit Reports	Audit Reports Issued Covering 75 Schools Or Departments	Project is in process but behind its planned phase on May 11, 2023. <i>Property and Inventory audits of 8 locations were completed. Other audits of schools and departments are in process. Certain additional Property and Inventory audits may be completed by the June Audit Committee Meeting. Remaining audits will roll into the FY'24 Audit Plan. This initiative was impacted by the vacancy with the manager of inventory control as well as vacancies of the inventory audit specialists who perform these audits. When the manager of inventory control was hired, we re-assigned her to assist with the internal funds audits prior to working on inventory audits.</i>
