<sup>1</sup> And with that being said, I don't believe, Mr. De	<sup>1</sup> question. I agree with Ms. Strauss. But we
<sup>2</sup> Meo, that we have had transparency into all	<sup>2</sup> should be we should first start with the head
<sup>3</sup> functions of this district. And I would like	<sup>3</sup> of ERM and find out what the process is, confer
<sup>4</sup> somebody independent to come in and be able to	<sup>4</sup> with whichever auditor we have and then go
<sup>5</sup> rip that up and do their jobs to help us	<sup>5</sup> forward. But right now, just to call for an
<sup>6</sup> understand what they are. I do not trust what	<sup>6</sup> audit like that, we asked for a budget. We spend
<sup>7</sup> information has been reported to us from the	<ul> <li>millions of dollars on outside auditors and I'm</li> </ul>
<sup>8</sup> chief auditor in my tenure here. And so with	<sup>8</sup> not sure that it's
<sup>9</sup> that being said, I want it done independently	<sup>9</sup> MS. STRAUSS: I don't want to do that.
<sup>10</sup> from outside and it's a three-month process on	<sup>10</sup> DR. LYNCH-WALSH: No, no, no. What he's
<sup>11</sup> average.	<sup>11</sup> saying is, when we get to that item, I don't
<sup>12</sup> DR. LYNCH-WALSH: The solicitation process.	<sup>12</sup> think that we've seen all of the costs.
<sup>13</sup> MS. STRAUSS: No, no, the actual work.	<sup>13</sup> So to that point so the question that's
<sup>14</sup> DR. LYNCH-WALSH: Oh. So what I'm saying	<sup>14</sup> been raised, because my concern with this idea is
<sup>15</sup> though is, solicitations from start to finish	<sup>15</sup> when we let's say we get it, who do we give it
<sup>16</sup> take three months and then if that process is	<sup>16</sup> to? Who's in charge of it? So I'm going to ask
<sup>17</sup> three months, but, actually so if I can	<sup>17</sup> the question, who would because it used to be
<sup>18</sup> clarify, so the the potential problem is, one,	<sup>18</sup> Brian Katz was in charge of enterprise risk
<sup>19</sup> it's got to be cost neutral. The other problem	<sup>19</sup> management for a hot minute and then when he
<sup>20</sup> that Mr. De Meo mentioned is, you can do that	<sup>20</sup> didn't become the interim superintendent he
<sup>21</sup> audit, but if there isn't somebody that knows	<sup>21</sup> disappeared. So who is in charge of enterprise
<sup>22</sup> what to do with it	<sup>22</sup> risk management for this district, Mr. Jabouin?
<sup>23</sup> MR. DE MEO: We should be talking to who's in	<sup>23</sup> MR. JABOUIN: Madam Chair, I don't have that
<sup>24</sup> charge of risk management and that point about	<sup>24</sup> response now. It was indeed under Mr. Katz when
<sup>25</sup> the reliability of the data and the information	<sup>25</sup> he was here, but I don't know.

It's in alignment with the5COSO model and applying that and Ms. Strauss6since she got on here has been talking about7Sarbanes-Oxley, so it's all part and parcel in8creating a strong system of internal controls.9Not internally, Mr. De Meo's not saying10internally, but there is an internal function11that is supposed to be doing risk management.12MR. MENZUL: But Mr. De Meo compared it to13DEI and ESG. I'm just not sure how I get14where he's coming from, but how is that really15similar?16DR. LYNCH-WALSH: That's not what he was17saying. He was saying that, you know, it's a18broad19MR. DE MEO: We don't even know what our risk20management, who's in charge; we don't know what23the process is; we don't know if we've already
1       I have a huge problem.         2       DR. LYNCH-WALSH: Right. But not everybody         3       knew that. That's why I wanted to make that         4       clear.         5       MS. STRAUSS: Well, thank you for making that         6       clear. I will be clear that I got confirmation         7       that she was named in the grand jury report,         8       she's still inside this school district. Hence         9       the need for an external independent audit. It's         10       really not that hard.         11       MR. MENZUL: Also, I move to fire her.         12       DR. LYNCH-WALSH: Okay. We have a motion.         13       MS. STRAUSS: I second that.         14       DR. LYNCH-WALSH: Hold on. No, no, no, we're         15       not going to do it like with the school board.         16       We have one motion at a time. One at a time. I         17       didn't hear the word substitute or amendment. We         18       still have one motion.         19       Okay. All right. So the motion on the floor         10       that we are discussing is to conduct an         21       enterprise risk audit of the entire district by         22       an independent external firm. It seems like we         23	1       The timing of this is like part two.         2       So if we want to get the concept out there so         3       that the board, at least, here's enterprise risk         4       audit; what's that? It's in alignment with the         5       COSO model and applying that and Ms. Strauss         6       since she got on here has been talking about         7       Sarbanes-Oxley, so it's all part and parcel in         8       creating a strong system of internal controls.         9       Not internally, Mr. De Meo's not saying         10       internally, but there is an internal function         11       that is supposed to be doing risk management.         12       MR. He was saying that, you know, it's a         18       broad         19       MR. DE MEO: We don't even know what our risk         12       MR. LYNCH-WALSH: Right.         3       MS. CARTER-LYNCH: We do not have to be         4       either-or.         5       DR. LYNCH-WALSH: Right.         6       MS. CARTER-LYNCH: We can, like you said,         7       let's finish this first motion.         8       DR. LYNCH-WALSH: That, too.         9       MS. CARTER-LYNCH: Keep it clean. And then         10       we can go to whatever next step we want to take.         11       Because I think we're convoluting to much right         12       here because I'm actually totally lost at this         13       point as to what the clear motion is. I do know         14       what Jaclyn said, but what the clear motion is         15       and what we need to second and what we need to         16       vote on, so can you let us know where, exactly         17       where we are with this?         18       DR. LYNCH-WALSH: Okay. And then Peter and         19       then I'm going to read it, because I'm going to         10       call the question on myself and you know how much         10       Ilove that.         12       MS. FERTIG: Nathalie, I have a comment just         13       before.

<sup>1</sup> MS. FERTIG: Okay. That's fine.	<sup>1</sup> That's what the internal audit department does.
<sup>2</sup> DR. LYNCH-WALSH: Okay. Thanks. Peter?	<sup>2</sup> It assesses the risks and tells us what to audit.
<sup>3</sup> MR. TURSO: So I'm going to take a phrase out	<sup>3</sup> ERA is not that.

<sup>7</sup> something that we would perhaps believe we would	<sup>7</sup> DR. LYNCH-WALSH: Okay. Because we're

<sup>11</sup> MS. STRAUSS: Okay. So, first of all, let me	<sup>11</sup> want to make a coherent I want to make an

<sup>15</sup> they are looking at the books to see if there is,	<sup>15</sup> Okay. Mary, and then we've got to wrap this
<sup>16</sup> you know, if they are clean or not. Can I give a	<sup>16</sup> up because now we're like half an hour behind

<sup>19</sup> whether it be procurement, whether it be the way	<sup>19</sup> MS. FERTIG: Thanks, Nathalie. Okay. So I'm

<sup>21</sup> MR. TURSO: Okay. Let me interrupt you. So	<sup>21</sup> weeks and that's in person; correct?
<sup>22</sup> lets use procurement as an example, because I	<sup>22</sup> DR. LYNCH-WALSH: Yes.
<sup>23</sup> think that's absolutely paramount. Give me an	<sup>23</sup> MS. FERTIG: And I'm inclined to think that
example of something that you could perhaps find	<sup>24</sup> Ms. Strauss has got some good ideas about doing

<sup>9</sup> MR. TURSO: So they are looking at the	<sup>9</sup> DR. LYNCH-WALSH: Okay. So, yes. And,

<sup>11</sup> the fact that there was a bid for something that	that we've discussed this
<sup>12</sup> was 3.1 million and there were multiple people	<sup>12</sup> MS. FERTIG: Yes.
<sup>13</sup> that could do the job but for some reason only	<sup>13</sup> DR. LYNCH-WALSH: and that we would like

So I don't -- so this is not -- so this is CRI and RSM, but to Mr. 13 13 hearing -- hearing no discussion, I'm going to De Meo's point, this doesn't capture all the 14 14 move on. external auditors; does it, Mr. Jabouin? 15 All right. The next item is E, the Business MR. JABOUIN: Yes, these are the engagements 16 Support Center org chart. So this is confusing and I still -- as Mr. De

Page 61	Page 63
<sup>1</sup> MS. STRAUSS: Is it Technical?	<sup>1</sup> counted for the portion that's being done in the
<sup>2</sup> MS. ARCESE: It is not Technical.	<sup>2</sup> current year. So I don't know that this is
<sup>3</sup> MS. STRAUSS: What does Technical mean? I'm	<sup>3</sup> accurate. I understand you would be on the
<sup>4</sup> sorry. What does Technical mean?	<sup>4</sup> accrual basis of accounting, but I don't know
5 MS. ARCESE: That is referred to as	<sup>5</sup> that this is accurate.
<sup>6</sup> non-administrator. So the administrator is Joris	<sup>6</sup> DR. LYNCH-WALSH: So hold on. This is the
<sup>7</sup> and Technical would be all of our positions under	<sup>7</sup> budget.
<sup>8</sup> his position.	8 MS. STRAUSS: No, no, but I'm referring
<sup>9</sup> MS. STRAUSS: Okay. So the administration	<sup>9</sup> Nathalie to 635, 635.
<sup>10</sup> though had a head count three for a total of	<sup>10</sup> DR. LYNCH-WALSH: Right. No, no, and I
<sup>11</sup> <b>\$424,800 424,878</b> .	<sup>11</sup> totally agree where it shouldn't say "other".
<sup>12</sup> MS. ARCESE: So this year that is both the	<sup>12</sup> There's two like bad words in accounting, other
<sup>13</sup> two directors and Mr. Jabouin.	<sup>13</sup> and miscellaneous. Those are two like, you know,
<sup>14</sup> MS. STRAUSS: Okay. And then Technical is 20	<sup>14</sup> like four-letter words. Because you try to throw
<sup>15</sup> staff. So, I'm sorry, what's Clerical versus	<sup>15</sup> that in there and someone's going to go, please,
<sup>16</sup> Technical?	<sup>16</sup> explain.
<sup>17</sup> MS. ARCESE: So Technical would be our	<sup>17</sup> MS. STRAUSS: Right.
<sup>18</sup> managers and our auditors and our system support	<sup>18</sup> DR. LYNCH-WALSH: So to her point, we need to
<sup>19</sup> specialists. Clerical are our clerical staff,	<sup>19</sup> please so for the next meeting we need
<sup>20</sup> which is our clerk specialists.	<sup>20</sup> comprehensive numbers with supporting details and
<sup>21</sup> DR. LYNCH-WALSH: Okay. So about 2.5 million	<sup>21</sup> everything Ms. Strauss asked for. Because if
<sup>22</sup> in salaries; is that what you're telling me; of	<sup>22</sup> we're having a discussion about the audit
<sup>23</sup> your 33 employees here in this department? Is	<sup>23</sup> function for the district we need all that was
that is that what you're saying.	<sup>24</sup> just mentioned by Mr. De Meo and Ms. Strauss with
<sup>25</sup> MS. ARCESE: Yeah, I mean, this is the	<sup>25</sup> the level of detail. Get rid of Other. Because
Page 62	Page 64
<sup>1</sup> projected budget.	<sup>1</sup> Other is like, you know, you bought water for the
<sup>2</sup> MS. STRAUSS: Okay. And so then please share	<sup>2</sup> audit committee. That's like miscellaneous.
<sup>3</sup> with me what is where is the amount you're	<sup>3</sup> MR. TURSO: Madam Chair.
<sup>4</sup> spending on external accounting firms?	<sup>4</sup> MS. STRAUSS: Hold on. I'm not done.
<sup>5</sup> MS. ARCESE: It's under the Other.	<sup>5</sup> And, Mr. Jabouin, to your point when asked,
<sup>6</sup> MS. STRAUSS: Okay. Now, I don't like Other.	<sup>6</sup> do you believe it would be more efficient to stay
<sup>7</sup> Typically, we don't like to report Other on	<sup>7</sup> with an internal department versus outsource it?
<sup>8</sup> financial statements. We want detail. So I	<sup>8</sup> I understand your point and in no way am I
<sup>9</sup> don't want a simple I want a detailed	<sup>9</sup> suggesting that there should not be a
<sup>10</sup> financial statement. So I want to know the line	<sup>10</sup> professional liaison that would work with that
<sup>11</sup> items under Other, and I'd like to also see those	<sup>11</sup> would be an internal employee of Broward County
<sup>12</sup> engagement letters as well as the submissions for	<sup>12</sup> Schools in an audit role to be a liaison with an
<sup>13</sup> payment. And I understand you don't have to get	<sup>13</sup> outside accounting department and firm. That is
<sup>14</sup> approval if it's under \$50,000. I'd still like	<sup>14</sup> definitely needed. Somebody can't come in here
<sup>15</sup> to see anything paid under \$50,000 to an	<sup>15</sup> and God knows they won't be able to know where to
<sup>16</sup> accounting firm and what that was for. Because I	<sup>16</sup> find things, right, or where to even look. So I
<sup>17</sup> believe that the expenditures were much higher	<sup>17</sup> believe there needs to be a position for that
<sup>18</sup> than the were much higher than the 635. To	<sup>18</sup> that is extremely well-versed in accounting and
<sup>19</sup> Mr. De Meo's point, I don't think this is	<sup>19</sup> auditing and all of the above to be able to be
<sup>20</sup> accurately depicting it. So what may have been	<sup>20</sup> that liaison. But I don't think anyone, there
<sup>21</sup> done here, and I'm just throwing this up against	<sup>21</sup> should be no hybrid work being done.
<sup>22</sup> the wall is, is you all signed an engagement	DR. LYNCH-WALSH: Okay. Mr. Turso.
<sup>23</sup> letter maybe three fiscal years ago and the work	<sup>23</sup> MR. TURSO: Yeah. This is really quite <sup>24</sup> fantastic. So let's look at something just maybe
<ul> <li>spanned over multiple fiscal years and so the</li> <li>cost of that engagement, okay, is being not</li> </ul>	landstic. Of let's look at something just maybe
<sup>25</sup> cost of that engagement, okay, is being not	<sup>25</sup> you can clarify or just to illustrate, we have a

14	MR. TURSO: So 33 employees and turning	14	MR. JABOUIN: So we'll work with the finance

4	MR. TURSO: Okay. That sounds good.	4	give us everything that you have
5	DR. LYNCH-WALSH: Hold on. And then we would	5	DR. LYNCH-WALSH: And more.
6	have these things called policy and procedures	6	MS. CARTER-LYNCH: and more.
7	that would, you could hand to the external firm	7	DR. LYNCH-WALSH: Okay. So I wanted that was Item J. Item K, the motions from our March

15	DR. LYNCH-WALSH: So let's move on from that.	15	at the next that'll be at the March meeting.
16	MS. STRAUSS: So just to clarify I want a	16	We're doing some policies and then this topic.

19	DR. LYNCH-WALSH: Budget to actual?	19	is just too small. I can't read this. I mean, I
20	MS. STRAUSS: No, I want a multistep with the	20	guess if it's on screen, but if we're going to do

So that was my one question there.         11       And then I just had oh, so for Facilities         12       Design and Construction, first I was a little         13       confused as to why these were capitalized because         14       they're, you know, 159 and so then I looked to         15       the left and it says a ThinkPad is a docking         16       station, I guess. So I guess my question is, how         17       do how do they go missing? Is there a system         18       in place that assigns equipment to people?         19       Shelley?         20       MS. MELONI: Good morning. Shelley Meloni,         21       Executive Director of Capital Programs,         22       Facilities. Yes, when we assign the laptop         2	1       DR. LYNCH-WALSH: Okay.         2       MS. MELONI: I think, and since this audit         3       occurred back in December, November, December, we         4       have put in some more stringent controls in         5       place. In fact, we actually are going to be         6       doing quarterly inventory which we are in         7       progress.         8       DR. LYNCH-WALSH: Well, especially since the         9       AECOM contract is up again, probably we want to         10       know who's got what before July.         11       MS. MELONI: Right, and before the staff         12       dwindles further; right.         13       DR. LYNCH-WALSH: Okay. Those are my         14       questions. Anybody most of these were not         15       even material enough to get anybody excited.         16       Okay. So I'm good.         17       Do I hear a motion to transmit?         18       MS. CARTER-LYNCH: I move to transmit.         19       DR. LYNCH-WALSH: Okay. Moved by         20       Carter-Lynch.         21       MR. TURSO: Second.         22       DR. LYNCH-WALSH: Second by Turso.         23       Any further discussion or are we good?

FERTIG: We're going to come to that, but         9       I don't see that that's been done, particularly         10       on child care which we discussed at length last         11       year.         12       DR. LYNCH-WALSH: So let's see what's been         13       done since the discussion on training. Yes?         14       MR. SMITH: Good morning. Ryan Smith,         15       Director of the Business Support Center. Would         16       additional context be helpful as well?         17       DR. LYNCH-WALSH: So long as it's not to         18       educate and inform. But the training, she's         19       asking what kind of training has been put in         10       place.         21       MR. SMITH: Okay. So as far as training         22       goes, we have met with the bookkeepers involved         23       in high school operations. As the commit	1       recall this being a previous discussion item.         2       MS. FERTIG: Okay. I'll just go back over         3       that. I what's your timeframe on getting all         4       this to the board as far as the revisions for         5       them to adopt?         6       MR. SMITH: Yeah, so when we revise standard         7       practice bulletins, those are internal operating         8       documents so they are performed by the staff. I         9       know that we are working collaboratively with an         10       outside auditing firm on this to get a second         11       opinion and make sure that the direction we're         12       headed is in line with our colleagues across the         13       state. And I know that we expect those documents         14       will be ready and reviewed by our operations team         13       and our senior team in the next three to four         14       weeks.         17       DR. LYNCH-WALSH: Okay. So hold that         18       that included in those costs that Mr. Jabouin         19       What outside auditing firm and         19       MS. STRAUSS: How much? How much? And is         11       that included in those costs that Mr. Jabouin         12       pave us?

We were told that, yes, we're they         12       have to have 90 percent done by March 31st, I

Page 97	Page 99
<sup>1</sup> not correct. We have to have 50 percent done by	<sup>1</sup> we're working now. And then there are schools
<sup>2</sup> March.	<sup>2</sup> that have not been done. So, generally speaking,
<sup>3</sup> MR. DE MEO: And by the end of the year, by	<sup>3</sup> based on the policy, we do based on fund balance;
<sup>4</sup> June?	<sup>4</sup> right? So they want us to have fund balance
<sup>5</sup> MS. ARCESE: By June 90 percent.	<sup>5</sup> 50 percent of fund balance complete by by
<sup>6</sup> MR. DE MEO: Oh, 90. Okay.	<sup>6</sup> March. And the reason for that is because those
<sup>7</sup> DR. LYNCH-WALSH: But there's difference	<sup>7</sup> are the highest risk; right? Those are the ones
<sup>8</sup> between balances and schools because you could	<sup>8</sup> that have the most money in and out. We do have
<sup>9</sup> address the balances and still have a ton of	<sup>9</sup> elementary schools that have a lot of money in
<sup>10</sup> schools to audit. And then what I'd like to see	<sup>10</sup> and out because of the before and after care, but
<sup>11</sup> on this schedule is what's not in progress yet,	<sup>11</sup> they are lower risk because a lot of our before
<sup>12</sup> so that we reconcile back to the total. Unless	<sup>12</sup> and after care are now transmitting moneys or
<sup>13</sup> that's in here, but I don't I would have seen	<sup>13</sup> processing or paying money through the OSP, so
<sup>14</sup> Western if it was.	<sup>14</sup> it it diminishes the risk at those schools.
<sup>15</sup> So we have what's been done; right; this	<sup>15</sup> MS. CARTER-LYNCH: Okay.
<sup>16</sup> starts with what's been done?	<sup>16</sup> MS. ARCESE: But we are in the process of
<sup>17</sup> MS. ARCESE: Correct.	<sup>17</sup> working through based on fund balance and that is
<sup>18</sup> DR. LYNCH-WALSH: Correct? And then we go to	<sup>18</sup> in accordance with the policy as well.
<sup>19</sup> what's in progress.	<sup>19</sup> MS. CARTER-LYNCH: Okay. So it's safe to say
<sup>20</sup> MS. ARCESE: Correct.	<sup>20</sup> I can just wait until you finish with the list
<sup>21</sup> DR. LYNCH-WALSH: And what we don't have and	<sup>21</sup> before I ask about something that I don't see;
<sup>22</sup> what I keep having to ask, which, as you know,	<sup>22</sup> right?
<sup>23</sup> whenever I have to do work beyond what a	<sup>23</sup> MS. ARCESE: You can ask now.
<sup>24</sup> volunteer should have to do I get crankier, what	<sup>24</sup> DR. LYNCH-WALSH: Well, she's going to revise
<sup>25</sup> should be at the end here is what hasn't been	<sup>25</sup> they're going to revise the list to include

<sup>3</sup> MS. ARCESE: Right.	<sup>3</sup> MS. ARCESE: Right. I'll add that. Yeah.
<sup>4</sup> DR. LYNCH-WALSH: So that's what I keep	<sup>4</sup> MS. CARTER-LYNCH: I'll just hold it.

<sup>6</sup> to do myself. I go back to the original list	<sup>6</sup> what is the internal fund balance for Western

<sup>8</sup> add that in and calculate where we are.	<sup>8</sup> MS. ARCESE: Give me a minute. Let me find
<sup>9</sup> MS. ARCESE: No problem. We can adjust it	<sup>9</sup> that.
<sup>10</sup> and resend it back out by the end of the week.	NO. STICOSS. And write were waiting, can we

2	DR. LYNCH-WALSH: Okay. And what items were	2	Alton's report.
3	in that realignment?	3	MR. MENZUL: Point of information.
4	MS. MOTIWALA: It was discussed at	4	DR. LYNCH-WALSH: What?
5	closed-door.	5	MR. MENZUL: Why would the BTU be told what
6	DR. LYNCH-WALSH: That's not a negotiation	6	is being
7	piece. Those whatever you realigned gets	7	DR. LYNCH-WALSH: They're negotiating with
8	submitted to the state; correct?	8	BTU.
9	MS. MOTIWALA: It will be submitted since the	9	MR. MENZUL: They're negotiating, but the
10	board approved it. So	10	person they're negotiating with doesn't need to
11	DR. LYNCH-WALSH: But the board it wasn't	11	know what part of the budget is being realigned
12	part of the backup. So the board, for all	12	to make it work.
13	intents	13	DR. LYNCH-WALSH: No, no, no, no, no. That's
14	MS. MOTIWALA: The board gets the amendment	14	not what I'm saying. The board. The board.
15	once we bring it forth now after the board	15	MR. MENZUL: I'm saying this in support of
16	approved the raises.	16	your point.
17	DR. LYNCH-WALSH: Okay. So the 19.6, I'm	17	DR. LYNCH-WALSH: Pardon?
18	trying to understand what makes up that number.	18	MR. MENZUL: I'm saying this is, actually,
19	It is not a secret document and I'm beginning to	19	made in support of your point. Because I think
20	think saying using the closed-door excuse is	20	it's not I don't think it falls under
21	inappropriate because those are tax dollars that	21	confidential.
22	were already allocated for something else, we	22	DR. LYNCH-WALSH: Closed-door? Right. Yeah.
23	just don't know for what. What did we give up in	23	No, I appreciate it.
24	order to pay these raises? So what schedule	24	So when will that amendment does it go to
25	was the board provided with a schedule that added	25	the state or does it go to the board first?

2	MS. MOTIWALA: The board was informed of what	2	it. But the board has to approve it.
3	was in there and what would have to be realigned	3	DR. LYNCH-WALSH: So then the schedules where
4	and that's what they approved. But once the	4	there's an amendment, that schedule is going to
5	amendment comes before the board for approval	5	come to the board when?
6	they will see which line items were have to be	6	MS. MOTIWALA: At the next board meeting.
7	realigned. I don't have that in front of me.	7	But not March. March is already posted. So it
8	DR. LYNCH-WALSH: So they were told verbally	8	would have to be in April.
9	so they were told verbally in closed-door what	9	DR. LYNCH-WALSH: Uh-huh. Okay. So I'm
10	you would be realigning?	10	going to say to you, this is not secret
11	MS. MOTIWALA: I'm not allowed to disclose	11	information. If you have a document that shows
12	what occurred in closed-door discussions.	12	what you're realigning and I do a public records
13	DR. LYNCH-WALSH: But I'm saying well, we	13	request, I expect to get it. And I do I
14	might have to get we might have to get Ms.	14	think, and we're going to have to get
15	Batista. Because I don't know how you can take	15	clarification that that was an inappropriate use
16	things you already allocated that are in a public	16	of closed-door because this is money that's
17	document, which I have, because I suspect that we	17	already allocated. That is separate from
18	pulled it out of Facilities, just like we did	18	whatever amount you're negotiating, they were
19	that 8 million. And then so we already know	19	negotiating with BTU and you couldn't talk about
20	what it was allocated to. It is not a state	20	for several months. Because this is how this
21	secret. In fact, I would suggest it's the exact	21	stuff keeps happening.
22	opposite of a secret to know what you're now not	22	You don't have it in general fund because
23	going to fund in order to do these raises. The	23	when we were at our last meeting we were like
24	amount that was negotiated with BTU was a secret	24	around 20 million and this is 36. So and the
25	until they approved it, but it sounds like that	25	17 is coming from the state. So zero was coming

3	Now, my next question is, there was	3	The board is aware that because it was also

7	that in addition to 19.6?	7	MS. CARTER-LYNCH: I have a question.
8	MS. MOTIWALA: Yes.	8	DR. LYNCH-WALSH: Yes, ma'am.
9	DR. LYNCH-WALSH: Okay. So we have 19.6 plus	9	MS. CARTER-LYNCH: Okay. My question is, so
10	23.9 coming out of ARP?	10	this was all done before it was approved by the
11	MS. MOTIWALA: If the board approves the	11	board?
12	other bargaining amounted.	12	MS. MOTIWALA: Yes, the board has to
13	DR. LYNCH-WALSH: Yeah, I get all that. But	13	approve
14	they already agreed yeah.	14	MS. CARTER-LYNCH: My question is, all this
15	Okay. So now we're at 43.5 million coming	15	took place before the board approved it?
16	out of ARP, and understand that this is stuff the	16	DR. LYNCH-WALSH: The negotiating and the
17	district already told the state very detailed	17	MS. MOTIWALA: The negotiations, if that's
18	line item budgets, and on the Facilities side,	18	what you're referring to, yes.
19	ironically, the things that were budgeted were	19	MS. CARTER-LYNCH: Now, are we sending it to
20	things like HVAC improvements. So when teachers	20	the state and the board they both are getting
21	are talking about being sick all the time, there	21	the information in tandem or the state gets it
22	was like 90 90 million or more that went to	22	after the board approves it?
23	it was HVAC, painting, windows, all things to	23	MS. MOTIWALA: After the board approves it.
24	improve indoor air quality and to seal the	24	MS. CARTER-LYNCH: Oh, after the board
25	buildings. So I can't wait to so what	25	approves it. Okay. I just wanted to make sure I

2	MS. MOTIWALA: Well, it's part of one of the	2	DR. LYNCH-WALSH: So to be clear, if you're

<sup>13</sup> going to talk about the scope and the cost. I	<sup>13</sup> MR. MENZUL: We should be defining scopes of
<sup>14</sup> don't see any cost here or any proposal for cost.	<sup>14</sup> work.
<sup>15</sup> This was signed in April of '23.	<sup>15</sup> DR. LYNCH-WALSH: Well, the scope of work was
<sup>16</sup> DR. LYNCH-WALSH: So, yeah, I kind of skipped	<sup>16</sup> probably to the original solicitation, not
<sup>17</sup> that because I didn't we would never get to	<sup>17</sup> MR. MENZUL: Right. But it's still you
<sup>18</sup> the end of the agenda, but we can certainly	<sup>18</sup> know, I think we discussed this one at my very
<sup>19</sup> circle back.	<sup>19</sup> first meeting and we still we were talking and
<sup>20</sup> MR. MENZUL: No, wait. Can we make a motion	<sup>20</sup> I think the minutes actually show this was
<sup>21</sup> on these? I thought we were going to finish	<sup>21</sup> discussed at the end of my very first meeting,
<sup>22</sup> them.	<sup>22</sup> that exact project.
<sup>23</sup> DR. LYNCH-WALSH: The OIG?	<sup>23</sup> DR. LYNCH-WALSH: Right. It was signed last
<sup>24</sup> MR. MENZUL: Yes.	<sup>24</sup> year, to your point.
<sup>25</sup> DR. LYNCH-WALSH: Hold that thought.	<sup>25</sup> MR. MENZUL: Right. And we were talking
Page 134	Page 136
<sup>1</sup> MS. FERTIG: Nathalie?	<sup>1</sup> about a six figure cost then with no operating
<sup>2</sup> DR. LYNCH-WALSH: Yes. But Mr. De Meo has	<sup>2</sup> I mean, and this goes back to the vending machine
<sup>3</sup> the floor.	<sup>3</sup> problem and the procurement report problem that I
<sup>4</sup> MS. FERTIG: Yeah, I want to respond to him	<sup>4</sup> had emailed you about, Mr. Jabouin, on February
<sup>5</sup> when appropriate.	<sup>5</sup> 1st and January 25th and 26th and got no response
<sup>6</sup> DR. LYNCH-WALSH: Well, Pavel also wanted to	<sup>6</sup> on to date.
<sup>7</sup> speak next.	<sup>7</sup> So all of these issues, they seem to be going
<sup>8</sup> So, to your point, they did provide a scope.	<sup>8</sup> back to the same thing. Somebody says in the
<sup>9</sup> I mean, I don't know what happens if you just	<sup>9</sup> district, whether it's at a school or the chief
<sup>10</sup> stop them dead cold in their fieldwork, you know,	<sup>10</sup> auditor says, you know, we need to spend this
<sup>11</sup> like, how much cost. But I'm trying to pull the	<sup>11</sup> money on this. There isn't really a scope I
<sup>12</sup> follow-up item to see, is there a cost I	<sup>12</sup> mean, there's not really an operational
<sup>13</sup> thought they had given us a cost before, but	<sup>13</sup> agreement, there's not really an invoice
<sup>14</sup> maybe not.	<sup>14</sup> necessarily, but we just commit it. And I
<sup>15</sup> Mr. Jabouin, is there a cost?	<sup>15</sup> understand that it's part of this \$230,000
<sup>16</sup> MR. JABOUIN: For RSM, Madam Chair?	<sup>16</sup> budget, but that is not really that's not an
<sup>17</sup> DR. LYNCH-WALSH: Yes.	<sup>17</sup> excuse; right? We have to be looking at it right
<sup>18</sup> MR. JABOUIN: The RSM cost is the \$230,000.	<sup>18</sup> from, is this actually what is needed for the
<sup>19</sup> DR. LYNCH-WALSH: For this particular for	<sup>19</sup> business or the organization?
<sup>20</sup> the Big 3?	<sup>20</sup> DR. LYNCH-WALSH: So to Mr. De Meo's point,
<sup>21</sup> MR. JABOUIN: Yes. It will be as one of the	<sup>21</sup> we should know how much it's cost so far and
<sup>22</sup> reports.	<sup>22</sup> bring that to the next meeting, or sooner, cost
<sup>23</sup> DR. LYNCH-WALSH: Each report is \$230,000?	<sup>23</sup> to date for the fieldwork.
<sup>24</sup> MR. JABOUIN: No, the annual cost for RSM is	<sup>24</sup> MR. JABOUIN: On the Big 3, Madam Chair?
<sup>25</sup> \$230,000 and they get all their reports done	<sup>25</sup> DR. LYNCH-WALSH: Pardon?
, , , , , , , , , , , , , , , , , , , ,	DIV. ETHOLEWALOH. Faldoh:

Page 137	7 Page 139
<sup>1</sup> MR. JABOUIN: On the Big 3?	<sup>1</sup> without logging their time and billing it to the
<sup>2</sup> DR. LYNCH-WALSH: Yes, because, to his point,	t, <sup>2</sup> correct client. And so they have to have those
<sup>3</sup> the OIG, and this has been Mr. De Meo's concern	<sup>3</sup> records. So having a bucket amount of money and
<sup>4</sup> this whole time, we found out that it was already	4 telling us that it applies to multiple audits, it
<sup>5</sup> a done deal while we were still discussing	<sup>5</sup> makes zero sense. Zero sense. So I'm just not
<sup>6</sup> whether we should move forward with it. So then	<sup>6</sup> going to buy it. And, again, it goes back to
<sup>7</sup> it was already a done deal and they were in	<ul> <li><sup>7</sup> wanting detailed records.</li> </ul>
<sup>8</sup> fieldwork. If they can if they have to turn	<sup>8</sup> MR. JABOUIN: Yeah, we will go back to them.
<sup>9</sup> over what they've done to the OIG, then what	<sup>9</sup> The initial response
<sup>10</sup> is right. So	<sup>10</sup> MS. STRAUSS: I logged every hour, every
<sup>11</sup> MR. DE MEO: Madam Chair, and Mr. Chief	<sup>11</sup> minute.
<sup>12</sup> Auditor, based on your discussions and some of	<sup>12</sup> MR. JABOUIN: It does make sense. We will
<sup>13</sup> the information, it doesn't make logical sense to	<sup>13</sup> ask them to go back and within that \$230,000 how
<sup>14</sup> me that this audit and the BTA and everything	<sup>14</sup> much was it for the Big 3?
<sup>15</sup> else they do is in the \$230,000.	<sup>15</sup> DR. LYNCH-WALSH: So I think he's going
<sup>16</sup> MR. JABOUIN: No, it's not. The 230,000 is	<sup>16</sup> further than that, to and I'll let you
<sup>17</sup> for their audits of the SMART Bond program	<sup>17</sup> articulate yourself because I don't think that's
<sup>18</sup> manager and owner's representative. The	<sup>18</sup> all you're asking for.
<sup>19</sup> behavioral threat assessment, those were done	<sup>19</sup> MR. DE MEO: Well, I think it would be
<sup>20</sup> under separate engagement letters and we'll	<sup>20</sup> beneficial for us to have a listing, pick a
<sup>21</sup> obviously, we'll prepare the expense information	<sup>21</sup> period, two years, right up through the most
<sup>22</sup> for you much better than we did within the	penou, two years, nght up through the most
<ul> <li>package. But the amount for the SMART Bond work</li> </ul>	recent at least through December 31st, the
<sup>24</sup> is 230,000.	<sup>24</sup> CPAs and so on through the audit department and
<sup>25</sup> Now, we did ask them, because it was not a	<sup>25</sup> their proposed cost and cost to date. Simple.
Now, we did ask them, because it was not a	their proposed cost and cost to date. Oimple.

<sup>1</sup> committee request, I believe they indicated that	<sup>1</sup> MS. FERTIG: Is that a motion, Mr. De Meo,
<sup>2</sup> they were not tracking the Big 3 separately	<sup>2</sup> that we can just move on?
<sup>3</sup> within the 230,000, but I'll ask them to come up	<sup>3</sup> MR. DE MEO: Well, I wanted to follow up on
<sup>4</sup> with a better estimate.	<sup>4</sup> the other issue. Did we decide on the scope of
<sup>5</sup> DR. LYNCH-WALSH: I thought it was taking the

For them to be for that audit to be coming April 11th MR. So the determination of the scope was done upon actually, the audit really came about as a request of the board and then the board asked for the audit committee to weigh in. The audit committee asked that different advisory committees also weigh in and they went through the process of doing that. DR. LYNCH-WALSH: But to Mr. De Meo's point MS. FERTIG: Can I just say, we're getting really we're running really late. I believe

<sup>1</sup> say that right there.	<sup>1</sup> through 6/30.
<sup>2</sup> DR. LYNCH-WALSH: Pardon?	<sup>2</sup> MR. JABOUIN: So noted. Thank you.
<sup>3</sup> MR. MENZUL: I'm looking at the January 11th	<sup>3</sup> DR. LYNCH-WALSH: Okay. I think are you
<sup>4</sup> minutes.	<sup>4</sup> good for right this second? Because we also have
<sup>5</sup> DR. LYNCH-WALSH: Okay. So the next item, we	<sup>5</sup> Audit Committee Member Comments.
<sup>6</sup> pretty much discussed the Chief Auditor	<sup>6</sup> All right. The resignation, unless you have
<sup>7</sup> Resignation Update. I think we're good on that.	<sup>7</sup> something that fits into that, as far as a motion
<sup>8</sup> MS. FERTIG: Before we leave that other item,	<sup>8</sup> goes.
<sup>9</sup> can we get something to send us a statement about	<sup>9</sup> MR. MENZUL: So are we still on 12?
<sup>10</sup> what Mr. De Meo asked for and have it in hand by	<sup>10</sup> DR. LYNCH-WALSH: No, we had to move from
<sup>11</sup> our next meeting?	<sup>11</sup> that. We passed a motion and we moved on.
<sup>12</sup> DR. LYNCH-WALSH: The other thing, which was	<sup>12</sup> MR. MENZUL: So we're on 13?
<sup>13</sup> the projects broken down by I'm going to have	<sup>13</sup> DR. LYNCH-WALSH: Yes.
<sup>14</sup> to get with Mr. Jabouin. Because he asked for it	<sup>14</sup> MR. MENZUL: Okay.
<sup>15</sup> repeatedly throughout this meeting. He's asked	<sup>15</sup> DR. LYNCH-WALSH: Are you good?
<sup>16</sup> for essentially the same thing.	<sup>16</sup> MR. MENZUL: I mean, I had I did the
<sup>17</sup> MS. FERTIG: I know and I just thought if we	<sup>17</sup> motion wasn't posed, so I dont know
had a quick motion that we wanted to see the cost	<sup>18</sup> MS. STRAUSS: Yeah, it passed.
<sup>19</sup> of all of the audits done by outside auditors,	<sup>19</sup> DR. LYNCH-WALSH: All right. Audit Committee
<sup>20</sup> you know, that we could get that language I think	<sup>20</sup> Policy Development, in light of, you know, the
<sup>21</sup> that would help us with the conversations that	<sup>21</sup> resignation, I think we can kind of pump the
<sup>22</sup> we're going to have.	<sup>22</sup> brakes or move slower, not worry
<sup>23</sup> DR. LYNCH-WALSH: I think we passed a motion	<sup>23</sup> MR. DE MEO: I've got to go.
<sup>24</sup> on that already, Mary.	<sup>24</sup> DR. LYNCH-WALSH: Pardon?
<sup>25</sup> MS. FERTIG: Okay.	<sup>25</sup> MR. DE MEO: I've got to go.
 Page 150	Page 152
<sup>1</sup> DR. LYNCH-WALSH: If not, I will make sure	<sup>1</sup> DR. LYNCH-WALSH: Oh, you have to go? Okay.
<sup>2</sup> I'm clear.	<sup>2</sup> And you're quorum.
<sup>3</sup> Okay. So	<sup>3</sup> Agenda Planning, that item was included, I
<sup>4</sup> MR. JABOUIN: Chair, can I just ask a quick	<sup>4</sup> think we're good.
<sup>5</sup> question of Mr. De Meo? How far back would you	<sup>5</sup> All right. So motion to adjourn?
<sup>6</sup> like to go on that; last couple of years?	<sup>6</sup> MS. CARTER-LYNCH: So moved.
<sup>7</sup> DR. LYNCH-WALSH: Three?	<sup>7</sup> DR. LYNCH-WALSH: All right.
<sup>8</sup> MR. DE MEO: A school year is June 30th;	<sup>8</sup> MS. STRAUSS: Second.
<sup>9</sup> right?	<sup>9</sup> DR. LYNCH-WALSH: All right. Moved by
<sup>10</sup> MR. JABOUIN: Yes.	<sup>10</sup> Carter-Lynch seconded by Strauss.
<sup>11</sup> MR. DE MEO: Would it be too difficult to	<sup>11</sup> Any discussion?
<sup>12</sup> give us a two-year calendar from through	<sup>12</sup> (No response.)
<sup>13</sup> December 31st, 2023 two years? That would give	<sup>13</sup> DR. LYNCH-WALSH: All in favor?
<sup>14</sup> us some sense of it. And then if you could	<sup>14</sup> COMMITTEE MEMBERS: Aye.
<sup>15</sup> compare the budget, I don't know if you can	<sup>15</sup> DR. LYNCH-WALSH: All right. Thank you all.
<sup>16</sup> straddle that?	<sup>16</sup> See you in two weeks.
<sup>17</sup> MR. JABOUIN: Sure.	<sup>17</sup> (Meeting was concluded at 12:32 p.m.)
<sup>18</sup> MR. DE MEO: Prorate it for the number of	18
<sup>19</sup> months. Try to do that. That would be useful.	19
<sup>20</sup> DR. LYNCH-WALSH: You want to get two years	20
<sup>21</sup> plus this one or one year plus	21
<sup>22</sup> MR. DE MEO: Well, I'd like it through	22
<sup>23</sup> December 31st. I don't care about the fiscal	23
<sup>24</sup> year so much; if it's not too much trouble. If	24
<sup>25</sup> it is, do June 30th and then do the sub period	25
