Congrats to Students Earning their White Belts!

This year SIM and CTACE partnered for Dr. Posner to provide free Lean Six Sigma White Belt workshops to students at three high schools: Northeast, Stranahan, and Western. The engagement of these students was outstanding, and over 140 total earned the valuable Lean Six Sigma White Belt certification.

With this universally recognized business credential added to their resumes, these students gain a key competitive advantage in the job market. Many of them are also now becoming SIM Ambassadors, with an interest in applying their new tools and knowledge in process improvement to help with the execution of our 2024 Strategic Plan!

SIM Ambassador Spotlight

Angelique Lynch, M.S./Ed.S.
Title I, Migrant Education & Special Programs

“Serving as a SIM Ambassador has given me the opportunity to personally connect to the 2024 Strategic Plan. This experience has already offered me growth in project management as well as ownership of a plan much bigger than my daily tasks. It also allows us to embrace the worth of our efforts by bringing to light each of our contributions towards the overall success of the 2024 Strategic Plan.”

*Wishing you and yours a very Happy Holiday and New Year.
May all your goals be reached!*
