Learning how to cooperate will help with success in school, in relationships with friends and in life over all. Listening carefully to others is the first step in demonstrating cooperation. It is essential to remember that cooperation is a basic life skill that assists us in working together so that collaboration and creativity will ultimately bring about success.

If you wanted to make sure all ten are covered you may want to have students draw from a hat. Then have each group write a commercial promoting one of the amendments. Commercials may include songs, jingles, skits, or “sales pitches” and should creatively demonstrate how these rights are important to people today. Each group will present its commercial to the class.

International Day of Peace (September 21)

Pinwheels for Peace:

Chalk4Peace: (Register: to receive a starter kit with chalk register online with http://www.choosepeacestopviolence.org. Chalk availability is limited! When buying additional chalk, talk to your local art store, tell them it’s for Chalk4Peace, or check with your Dollar Stores.) Group Project: Take some rope and a big piece of sidewalk chalk. Tie the chalk and have someone hold the end of the rope tight to a center point. Pulling the rope tight, draw one big circle, and then repeat a smaller circle 2-3 feet smaller. Get someone who can draw straight lines and create the inner lines with a long 2x4 or a surveyor’s chalk line. Make these lines bold with chalk, white tempera poster paints or marking chalk spray. Scatter some loose chalk pieces inside the lines and watch it happen.

Service Learning

Ideas on How to Use this Section:
- Promote school-wide service learning initiative/campaigns using provided ideas. (Do a ‘service day’; encourage classes to do random service acts of kindness to other classes/staff, etc.)
- Engage school clubs/student council to lead service projects.

School Service-Learning
- Relationships with Younger Students

Classroom Ideas

Class Discussion Topics
- Have students share about projects they have worked on where they successfully cooperated with others.
- Discuss the specific skills necessary for cooperating with others.

Creative Expression
- Students will explore how conflict can be negative and positive. Have students do this in small groups and present to the entire class. Students will create a class mural, which shows how conflict can be beneficial or detrimental.

Hands-on Activities/Projects

Human Knot
Divide the class into two groups of about fifteen students each. Have the students in each group form a tight circle facing inward. Each person is to reach across the circle and take the right hand of someone in the circle not next to him or her and then the left hand of someone else not next to them. No one should be holding both hands of another person and no one should have his own arms crossed. The cooperative task is to untangle himself or herself without anyone in the circle letting go of a hand. They will end up back in a circle if they are successful. Some of the participants may be facing out instead of in. If they succeed, ask if a natural leader emerged and why the group automatically followed or challenged the natural leader. If no natural leader took over, ask the group to describe the process of untangling through equal suggestions.
