LEADING THE WAY

Welcome Denise!

We are excited to announce Denise Mincey-Mills as Officer of the BCPS Economic Development & Diversity Compliance Department. A seasoned leader, most recently, Denise successfully directed and implemented the Miami Dade County Public Schools Office of Economic Opportunity's policies and procedures, certification and prequalification programs, community outreach initiatives, and contract compliance.

"I'm excited to apply my knowledge and experience in such a dynamic environment as Broward Schools," Denise said. "It is clear that opportunities for small businesses are vast here, and the Board is committed to economic growth that will ultimately impact student achievement."
