

Traveling.....and Keeping it Safe so it's a FUNcation!

Cruising: When Planning a cruise, consider the needs of your family and put in place measures to reduce these risks. Organize extra swimming lessons, designate a family meeting place on the boat once you are on and teach your kids how to ask for help from crew members.

Road Trips: ensure you rest at regular intervals during the drive and have a strategy to keep your kids safe when out of the car. Pack, devices chargers and activities to keep everyone occupied and reduce the chance of driver distraction while on the road.

Staycation: Staying close to home might seem a safer option. Take time to research your local area as if you were a tourist. Develop social stories and visual itineraries to support your child in exploring new and familiar location in your local community.

Important Dates

June 3rd Cluster Ceremony

June 4th Last day of School

August 13th Meet and Greet
