

March Third Grade Newsletter

Reading

As we prepare for the Florida Standards Assessment, students will continue to review the previous standards that were taught. This month, they will be learning how to connect pictures and words in informational and literature text. We will also show them how to compare and contrast two texts.

As students continue to read, they will be able to connect words and pictures in the text.

During Spring Break, please ensure that your child continues to use I-Ready for at least 50 minutes weekly and passing their lessons.

Math

Students will continue to solve multiplication and division problems. In addition, we are concluding our lessons on fractions. Students will begin learning about time and measurements using length, liquid volume and mass.

During Spring Break, please make sure your child is going on I-Ready Math for at least 50 minutes and passing their lessons. Other online resources such as ReflexMath and Prodigy Game will also assist with preparing for the FSA.

IMPORTANT DATES

3/4 Jump Rope for Heart

3/15 Spring Dance

3/25-3/29 Spring Break

CONTENT

We encourage your child to be active and have at least 60 minutes of physical activity per day.
