SMART Facilities Update

Broward County Public Schools (BCPS) is committed to implementing the SMART program with fidelity and quality.

Recently, the District rejected the bids for the Requests For Proposals related to Blanche Ely High School, Northeast High School and Stranahan High School.

The rejection of the bids will cause a delay in the delivery of the facility improvements at the three schools. However, when the District set out on this journey, we promised the community that the SMART work would be done right – and we are going to invest the time necessary to ensure quality results. A revised competitive solicitation for these three schools is forthcoming. Meantime, SMART projects Districtwide continue to progress.

As of March 2016, the Office of Facilities, with the SMART Cost and Controls Manager and Owner's Representative, is overseeing approximately 230 SMART projects.

In addition, in response to previously issued Request For Qualifications (RFQs) for Professional Design Services, several Qualification and Selection Evaluation Committee (QSEC) meetings have taken place. The QSEC meetings involved SMART projects at the following schools:

- Atlantic Technical College
- Broadview Elementary School
- Coconut Creek Elementary School
- Cypress Elementary School
- Lauderdale Lakes Middle School
- Maplewood Elementary School
- Margate Elementary School
- Oakridge Elementary School
- Pompano Beach Elementary School
- Pompano Beach Middle School

The following school projects were initiated since the beginning of March 2016.

- ▶ **Coral Springs High School (District 4)**
Single point of entry, fire sprinklers, weight room renovation, and improvements to STEM lab, media center, HVAC, electrical and building envelope
- ▶ **Dillard High School 6-12 (District 5)**
